Bormioli Rocco

Bormioli Rocco's combinations for the dropper pipette

Bormioli Rocco has increased its efforts to supply their clients with a variety of combinations of materials, shapes and colours for their dropper pipettes.

Now the customer can choose between child proof and tamper evident closures with different diameters (18-24-28), and either PVC or rubber pumps, and glass types III, PE or PP pipette.

Thus creating numerous opportunities to differentiate the product: from the colour match of the cap to the shape and size of the pipette.

Bormioli Rocco is one of the world's leading companies focused on the development and manufacturing of a diversified line of rigid packaging containers both glass and plastics, dedicated to pharmaceutical, cosmetics/perfumery and food markets
