Ching Fon

The Company:

CHING FON provides inventive product development and is a leader within Research, Development & Manufacturing. The company sets extremely high standard quality levels and applies updated technology to elegant containers. The company's mission also includes offering unsurpassed service.

Originally called Queen Chemical (a small family firm with one factory) the company grew up to become a medium-sized enterprise focussing on the colour cosmetic packaging market, with the addition of skin care packaging in 2000.

The Ching Fon Timeline:

- 1965 Mr. Chiang establishes the company.
- 1993 Investment in a large number of public & private moulds.
- 1996 Establishment of a sister company for finished cosmetic products.
- 1997 Expansion into a new building in Taipei County.
- 2002 Set up a branch locaton in Wuxi (near Shanghai), China.
- 2006 2nd sister company for cosmetic and make-up kits incorporated into the group.
- 2008 Patented plastic mascara brushes.
