

Coster

New Sfera spray cap for foams and gels

Coster has recently released the latest Sfera spray cap, a very efficient actuator available in two versions, for foam and for gel. Both of these actuators are equipped with a protection overcap to avoid accidental actuation.

The Sfera cap joins the vast family of Coster spray caps and actuators. Sfera production will start in few weeks.

Main characteristics:

V31.28

Sfera actuator for gel, with protection overcap V20.103
Suitable for necked-in Ø 52 mm tin plate cans and
Cebal Transfer Ø 53 mm aluminium cans
Suitable for BOV dual compartment system valve
Orifice Ø 0.8

V31.29

Sfera actuator for foam, with protection overcap
V20.103
Suitable for necked-in Ø 52 mm tin plate cans and
Cebal Transfer Ø 53 mm aluminium cans
Suitable for BOV dual compartment system valve
Orifice equivalent Ø 3.1
