Low profile caps for entertaining children's packaging

[Contact the supplier](#)

Giflor

Giflor has worked with Forte Sweden to provide them with a low profile cap that is perfect for framing bottles. This sleek cap is perfect for the shampoo-bath foam package for kids giving the bottle an entertaining look for children.

The reduced dimension and minimalistic caps have been designed by Giflor to be subtle in their appearance giving an excellent visible impact to a variety of products.

Forte Sweden company is a manufacturer of body and hair care products. The company offers a wide range of cosmetics including: shampoos and conditioners, hair sprays, mousses and gels, liquid soap, foam baths and shower gels, bath salts, body lotions and peelings, deodorants, hand and foot care products. They immediately saw the benefits of this subtle closure offering from Giflor, for the launch of this product into the Polish market.

These low profile caps:

- Combine with the bottle shape, to provide a unique pack appearance;
- Have reduced dimensions giving an excellent visual impact with the lowest height and weight possible for perfect sustainability;
- Are easy opening and can be opened with one hand (spring hinged);
- Have a quick snap-on facility for easy on-line assembly and orientation;
- Are versatile in their usage being suitable for cosmetics, personal care or detergents;
- Come in a complete series with 2,5 and 5 mm dispensing aperture diameter;
- are Giflor copyrights.
