Metalicoplastico

Lincoln, the cost effective jar by Metalicoplastico

Metalicoplastico has developed “Lincoln”, a lighter thick wall jar at a competitive price. They have designed this jar with a diameter of 63mm to fit with all their range of closures and help you to create a different style for each of your products.

By combining Metalicoplastico’s jar and closures you have a wide range of possibilities from which you can choose the one most suited to your skin care line. You could also choose more than one combination to differentiate between your different products. They also have different decoration techniques and effects to offer you a complete packaging solution.

Lincoln has a presidential appearance with its cylindrical shape that matches perfect with the closure and also offers a huge area on which you can print any product information.

This 50ml capacity jar is available in different materials such as SAN, Acrylic and PS.

Metalicoplastico offer an incomparable assortment of models and capacities, including luxurious jars, bottles, make up cases and mascaras all available in a wide variety of shapes and sizes.
