Multitubes BV

## Now available photographic printing decoration with unlimited colors

Photographic printing quality is now available on Multitubes packaging. Think of unlimited color decoration and the fact that special effects provide even more decoration possibilities.

Multitubes is able to offer unlimited color decoration, high ink capacity and special effects on your tubes.

Besides the possibilities of silkscreen printing, labeling and hot stamping they now offer a technique with following advantages:

Special effects possible. For example variable data for promotion with scratch, thermal inks, invisible inks.  
High ink opacity, including white color.  
Photographic printing quality with unlimited colors (see picture).

If you think tubes, think Multitubes!
