Neville and More

Twelve high quality disc top closures available direct from stock

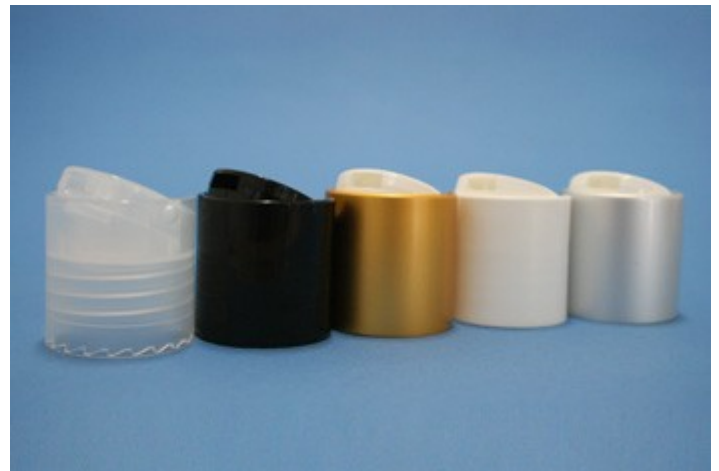

Neville and More has invested in twelve new disc top closures, all of which are available direct from stock for a minimum order quantity of just a single carton.

This means that customers no longer need to order large quantities of disc top closures and wait several weeks for delivery. This optimises customer inventory levels and warehouse space, which in turn reduces working capital and cash flow requirements.

The disc top caps conform to the most popular industry standard bottle neck specifications of 20mm 410 and 24mm 410 and are available direct from stock in white, black, natural, silver, silver metallic over shell and gold metallic over shell.

This new range of disc top closures forms part of Neville and More's comprehensive closure, dispenser and sprayer stockholding programme which includes more than 300 different products, all available direct from stock for a minimum order quantity of just a single carton.

For more information on how Neville and More's stockholding programme can help reduce your working capital requirements and free up cash flow, call +44 1403 732290 or visit www.nevilleandmore.com.
