PET-Power

## PET-Power Switzerland moves into health and lifestyle

Improving quality of life and adopting a healthy lifestyle with more sports, less stress and good food is now important for more and more people in Switzerland. Fresh foods and organic products are very popular and a big selection is available in many supermarkets.

Health food shops are developing and increasingly expanding their range of natural supplements. The standard ranges of PET-Power are a welcome solution for the packaging and can be seen more and more on the shelves. People become more and more aware that taking care of oneself and relaxing in Free-time is necessary. This is seen in the growth of massage and bath products. As a land where the nature is very important natural cosmetics fullfills the need in this area of the market.

The company Kirin Health Care specialises in natural supplements. Their wide range of products includes Himalayan Crystal Salt for cooking and also for relaxing healthy baths. Kirin had the choice of the large range of pilljars PET-Power offers. This range comprises 9 different volumes, each available with a screw neck and hinge neck finish. Moreover, this range is available from stock in different colours and associated caps complement our offering.
