Quadpack

All PP 30ml pot launched exclusively by Quadpack

The 30ml pot is a recyclable rounded polypropylene airless container combining excellent product compatibility and design requirements. Its 0.15ml dosage pump corresponds to 30ml standard make-up and cosmetic packs.

Exclusively from Quadpack, the new Yonwoo design:

Lightweight PP construction:

- Recyclable
- Excellent product compatibility
- Competitive pricing

Patented Yonwoo airless pump technology:

- High viscosity dispenser ideal for thick products
- No metal components in contact with product
- 0.15ml dosage

New design:

- Actuator with a soft shape design to answer market trends
- Modern convex bottle shape

30ml capacity

Multiple decoration options:

- Custom colors
- Screen printing, hot stamping, spray coating...
- UV coating

Ideal for formulas which require airless system, this version will soon be part of a collection to be joined by complementary 15ml and 50ml sizes.
