Quadpack

## Jumbo Boston Round collection

This easy, top-filling Jumbo airless pack with new actuator and cap is made from polypropylene to combine excellent product compatibility with an economical cost.

Exclusively from Quadpack, this new Yonwoo design features:

- Lightweight PP construction
- Recyclable
- Excellent product compatibility
- Competitive pricing

Patented Yonwoo airless pump technology:

- High viscosity dispenser ideal for thick products
- No metal components in contact with products
- 0.20ml dosage

Capacities available: 30, 50, 100 & 150ml

New design:

- Actuator with a soft shape design to answer market trends
- Classic “Boston Round” shape

Multiples decoration options:

- Custom colours
- Screen printing, hot stamping, spray coating...
- UV coating

Ideal for formulas which require airless system, this version is the first airless version with boston round design to match existing ranges and can be complementary to standard jumbo pack .
