SHB Gmbh

## A royal touch with the Crown closure from SHB

At Cosmopack Bologna SHB will introduce their brand new elegant and feminine Crown closure which will perfectly fit on every Gemini II and Saturn II bottle.

In line with their latest innovations SHB introduces an original and stylish closure: the crown closure. Fitting both Gemini II and Saturn II bottles these new cap will allow the customer to add a new look to this already extensive bottle range.

The Crown closure will add to the already extensive range of closures offered by SHB, which allows the customers to stock one bottle and offer original shaped caps all with single or bi-colour options.

With its original design, the Crown closure will offer you further options to differentiate your products and give them a royal place on the shelf.

Important: The new Crown closure from SHB is not available for the German and South African markets.

SHB will exhibit at Cosmoprof, Bologna 2nd to the 5th April 2009 Hall 19, booth C1-D2.
