No longer is the flip top method of closure limited to bottles

Stak Plast is proud to present the new 'click clack' caps. These caps are available for different jars and make them extremely consumer friendly.

No longer is it an effort to twist of a cap that is closed too tight. To open or close just click.

The caps stay attached to the jar and are impossible to misplace. An adhesive lid guarantees that the contents of the container you buy in the store are not tampered with. The caps come in multi colours and give an aesthetic appearance that allows for free expression through well matched colours.
