New RP & RN bottles by Stakplast

Stak Plast are pleased to introduce their new bottles with a combination of different type of closures.

The new RP and RN bottles are made in PETG for beautiful clarity, below are the specifications for these products:

RP-100/200ml series:

- Available in two sizes - 100ml and 200ml
- RP series is standard 38/400 neck finish
- Available in PETG/PE
- Currently available with low profile snap cap in White or Transparent per picture enclosed.

RN-50/100ml series:

- Available in two sizes - 50ml and 100ml
- RN series is standard 24/410 neck finish
- Available in PETG/PP
- Available with Spray dispensers / Lotion pump / Mushroom shaped Snap caps and Standard Snap caps.

Stak Plast's RP and RN bottles will be available in April with beautiful wadded Aluminum caps for a complete high end look. Kindly note the minimum order of PETG items is 10,000pcs per article.

They have succeeded in building a solid reputation by providing worldwide well-known cosmetic companies with a total product solution – from the initial concept and designing of a packaging, through its decoration and delivery.
