New 'PSJ' (PETG square jars) series by Stak Plast

Elegant and uniquely shaped, the new PSJ jars by Stak Plast are suitable for a diverse range of applications. These jars have a particularly wide neck making it easy to extract the product.

In addition to their natural appeal for cosmetic products such as creams, body butter, bath salts and others, this design of new PSJ series can also accommodate high end products related to the food industry such as chocolate, coffee, tea, spices etc.

Available in three sizes 250ml, 350ml and 500ml, the new 'PSJ' series was designed based on Stak Plast's widest neck opening. The wide neck (80mm) allows user to conveniently extract the product from the jar.

PSJ series are made of plastic PETG for jar, plastic PP for cap and plastic PE for the lid.

The "PSJ" jars are available with Stak Plast's range of caps: A / V / C / AL / SC / SCN.
