Stölzle Glass Group

## Roberto from STO – Where soft and sharp shapes meet

With its rectangular and straight shoulders and its delicate round and soft curves on the side, Roberto represents the exquisite balance for an outstanding elegant glass bottle.

A recent addition to the STO website, Roberto is a graceful 100ml glass fragrance bottle from the STO range of versatile standards for the perfumery, toiletry and personal care markets. Wide, straight shoulders curve down to a smaller foot. Front and back are also gently curved and offer generous faces for branding. A tactile bottle, Roberto fits easily in the hand.

STO not only provide a wide range of standard bottles, they are also renowned for custom designed glass containers. Both standard and custom designed bottles are produced to high quality standards. The STO decoration factory includes a sophisticated automatic spray programme and automatic acid etching. Together with the wide range of closures on offer, STO is a 'one-stop-shop'.
