Taiwan K.K. / Taixing K.K.

Multiple function pumps by Taixing K.K. Plastic

This pump has a water shield function and an anti-back flow function. The spout orientation means it is easy to fill and maintains a high class image. The pump prevents liquid from touching the spring before use and the few injection parts make it cost effective and functional.

Taixing K.K. Plastic Co., Ltd, is dedicated to designing, developing and manufacturing various high-quality lotion pumps and roll-on packaging.

As an industry leader, they not only provide you a dispenser but a comprehensive dispensing solution and unique value sure to exceed your expectations whilst meeting your objectives.

They strive for perfection and aim to provide customers with the best quality products and services using advanced equipments and technology.

They have done the best to keep ahead in the beauty packaging field and they hope to have a splendid future together working with you.
