Weatherchem

Weatherchem is pleased to present its LiquiFlapper

The unique design and its Easy-to-Open Application makes it a very desirable dispensing closure for the food and beverage market.

Consumers love the LiquiFlapper and market research has proved it!

A recent study by Weatherchem using consumer focus groups to discuss the innovative LiquiFlapper[®] found the message "We just love it," to be the most used statement.

The LiquiFlapper is perfect for all liquid condiments from salad dressings to sauces and syrups to coffee creamers.

With the LiquiFlapper closure system, controlled flow dispensing is now a reality. No waste, no mess and easy to use...the perfect combination for all consumer groups.

Weatherchem is an innovative manufacturer and marketer of convenient plastic dispensing closures and controlled access packaging.

As the creators of the original Flapper[®] dispensing closure, Weatherchem now offers one of the industry's most innovative closure product lines including: Flapper[®], FlapMate[™], Grinder NR, LiquiFlapper[®], NutraFlapper[®], NutraGen II[™], and Agricap.

If you are designing or selecting packaging for your new product, or revamping the design of an existing product, Weatherchem has the closures that consumers love.
