Weatherchem

At Weatherchem ideas are turned into innovative, convenient, controlled dispensing closures. As the creators of the original Flapper[®] dispensing closure, Weatherchem now offers one of the industry's most innovative closure product lines including: Flapper[®], FlapMate[™], Grinder NR, LiquiFlapper[®], NutraFlapper[®], NutraGenII, and Agricap. If you are designing or selecting packaging for your new product, or revamping the design of an existing product, they have the closures that consumers love.

Much more than simply plastic caps and lids, Weatherchem closures deliver added-value for your products. Contemporary, colorful, convenient and consumer-friendly, their products bring a perception of quality to everything from spices to nutritional supplements to chemicals. And when your customer hears the audible "snap" while closing Weatherchem closures, they know that freshness and security are only a "snap" away.
