Weener Plastic Ibérica

New tamper-evident and child-proof resistant caps by Weener Plastic Iberica

Weener's PP28 range has been specially designed for the pharmaceutical, cosmetic and body-care industries.

If you are looking for a tamper-evident packaging, their new PP28 caps for PET and PP Bottles would be a good choice.

With this new range you can choose the closure which best suits your needs: Tamper-evident available in one piece, and also Child-Proof Resistant caps in two pieces, both with cone or dropper.

If you are looking for something unique and want to customize your packaging, they can design your own bottles with screw PP28. Please ask for minimum order quantities.

Listed are the specifications for different types of Weener Plastic Iberica's closures:

- Cap PP28 with cone is made in plastic PP, with 32 mm. outer diameter, 24 mm. height and weight 4 g. Reference number WEPP28/1
- Cap PP28 with dropper is made in plastic PP and PE, with 32 mm. outer diameter, 24 mm. height and weight 5 g. Reference number WEPP28/1GOT
- Cap Child-Proof with cone is made in plastic PP, with 35 mm. outer diameter, 26 mm. height and weight 7 g. Reference number WEPP28/CH
- Cap Child-Proof with dropper is made in plastic PP and PE, with 35 mm. outer diameter, 26 mm. height and weight 9 g. Reference number WEPP28/CH/GOT

All four versions can be used with their PP28 PET
