Introduction of Acos Tech

Acos tech is one of the most prominent **cosmetics automation equipment producers** in **Korea**.

We seek to provide the best service possible to our customers based on our abundant experience and know-how.

Acos Tech consists of engineers with 8~28 years of experience in the field. We also have a large base of overseas customers. We are constantly growing at a healthy and stable rate, complying global standard. We acquired ISO9001/14001, CE certification. We were also accredited for our independent R&D laboratory and as Gyeong-gi Internet Trade Frontier Business by Korean Government.

If you choose to work with **Acos Tech**, we will respond with our excellent service and product quality.

The Acos Tech provides you with the good customer centered service.
