Conscious Capitalism and Conscious Business

Conscious Capitalism Spain and Conscious Business Europe jointly contribute to create a Community of Conscious Business Leaders in Europe.

We share a framework that supports business leaders to elevate humanity through conscious business practices.

Capitalismo Consciente España is a non-profit foundation, founded in 2016 to expand Conscious Capitalism into the Spanish business community.

Our currently 100+ active members largely reside in Barcelona, with +3.000 more followers through Spain and Latin America.

We offer several in-person Leaders Forums every year, Best Practice In-company visits and a yearly conference event.

CONSCIOUS BUSINESS

Conscious Business is a non-profit foundation, founded in 2021 with the purpose to create a business economy where all prosper.

We offer the Conscious Business Journey that supports leaders to learn from each other. Leveraging the hard learned lessons of the already more conscious businesses and thus creating a ripple effect.

We help our clients to understand where they stand with our Conscious Business Scan
