corner protectors

These open corner protectors are tough and durable and offer excellent impact protection for fragile corners. As well as being cost effective, they are versatile and can be used on a wide range of products from desks to computer cabinets.

- External dimensions: 82x82x86mm (3.23"x3.23"x3.39")
- Internal dimensions: 62x62x60mm (2.44"x2.44"x2.36")
- Nominal wall thickness: 24mm (0.94")
- Supplied in packs of 500 individual corners (125 breakable clusters of 4 corners)
- Stock item - we always hold a large quantity in stock at Custompac.

All prices include VAT and P&P to Mainland UK (excluding highlands & islands). All corners are supplied in a breakable cluster of four (see picture).

Product	Box Qty	Price per pack
Custompac Corner	500	£81.07 (approx £0.162 per corner)
Custompac Corner	1000	£155.76 (approx £0.156 per corner)
Custompac Corner	2000	£278.72 (approx £0.139 per corner)

eps sheets

Our standard EPS sheets are one of the most cost effective forms of packaging available on the market. Designed to absorb the knocks and scuffs that threaten your products during transit. Available in a range of different grades to suit any application from packaging to insulation. They are lightweight and easy to cut to size, making the packaging of your products a much simpler and speedier process. Your products will reach their destination undamaged in a clean, neat package.

Prices and details for our standard EPS sheets illustrated above are available on our website: www.custompac.co.uk

Bespoke shapes and sizes available on request
01977 519339

Specifications & Benefits

Sheet sizes: 2000x1200, 1200x1200, 1200x600, 600x600, 400x300, 300x200mm

Thicknesses: 5, 10, 15, 20, 25, 30, 35, 40, 45, 50, 55, 60, 65, 70, 75, 80, 85, 90, 95, 100mm

Densities: 9.5, 10, 14, 14.5, 17.5, 18, 22kg/m³

Colour: White & black (black only available in 22kg/m³ on request)

Fabrication Methods: Sawing, knife cut, waterjet, routing & hot wire

Performance: Provides good impact protection

Environment: Manufactured by a totally CFC and HCFC free process

mug mailers

Expanded polystyrene mug mailers are arguably the most versatile and inexpensive way to package your mugs available on the market today. Lightweight, flexible and strong enough to provide total protection.

- 320 sets per pack
- Each mug mailer set weighs approximately 18 grams
- Cardboard outers available on request
- Your logo can be added for an additional charge (please contact us)
- Your mug mailers can be supplied without any logos
- We always hold large quantities in stock

Product	Box Qty	Price per pack
Mug Mailers	80	£37.97 (approx £0.47 per pack)
Mug Mailers	160	£60.14 (approx £0.38 per pack)
Mug Mailers	320	£94.86 (approx £0.30 per pack)
Mug Mailers	640	£178.34 (approx £0.28 per pack)
Mug Mailers	1280	£349.86 (approx £0.27 per pack)
Mug Mailers	5120	£1351.44 (approx £0.26 per pack)
Mug Mailers	10240	£2345.90 (approx £0.23 per pack)

bespoke eps packaging

Expanded polystyrene (EPS) is arguably the most versatile and inexpensive packaging material available on the market today. EPS foam consists of a structure of closed cells made up of 98% air making it ultra lightweight yet strong enough to provide total protection for your product. EPS is also non toxic, contains no CFC's or HCFC's and is 100% recyclable, making it an environmentally sound packaging material. Here at Custompac we are proud to introduce our new "Eco" grades offering superb environmental credentials containing up to 40% recycled material.

Here are just a few examples of packaging solutions that we've developed, please don't hesitate to contact us with your enquiry.

foam profiles

Custompac has the edge...

Our standard foam profiles provide excellent surface and edge protection and are available in many different profiles to suit any packaging application.

standard foam packaging

Our standard packaging foam is a closed cell, non-crosslinked polyethylene foam designed to absorb the knocks and scuffs that threaten your products during transit ensuring that they will reach their destination in a clean, neat package, undamaged and completely dust free!

Specifications and benefits:

- *Sheet size: 2000x1200mm. The extra wide material maximises yields during fabrication*
- *Available in a range of thicknesses: 13, 20, 25, 30, 40, 50, 70 & 100mm*
- *Density: 24kg/m³ Designed to provide high performance cushioning protection*
- **Colours:** The standard colour is white, also available in black, blue and pink anti-static (please note that black, blue & pink are only available in certain thicknesses)
- **High performance cushioning** - Provides better protection using less material than many alternative packaging solutions.
- **Reduced packaging costs** - Less foam results in smaller packs. This, in turn, reduces material and transport costs as well as storage expenses.
- **Very resilient** - Quick recovery from multiple compressions and impacts make it ideal for use in returnable material handling systems.
- **CFC and HCFC free** – manufactured by a totally CFC and HCFC free process.

specialised foam packaging

Our specialised foam is a closed cell, cross-linked polyethylene that is available in a wide range of vivid, attractive colours, in addition to the commonly available black and white. Many leading brand manufacturers have benefited from the unique combination of aesthetic appeal and ultimate protection that these foams provide. Our specialised range of foams are lightweight, flexible and tough, yet in the retail field they remain select, providing a mark of distinction for those special packaging projects.

Specifications and benefits:

- *Standard sheet size: 2000x1000mm*
- *Available in any thickness from: 3 - 300mm*
- *Standard density: 45 kg/m³ (other densities are available on request from 15 to 115 kg/m³)*
- *Wide range of vibrant colours: View our extensive colour chart*
- *Very resilient - Quick recovery from multiple compressions and impacts make it ideal for use in returnable material handling systems*
- *Non-toxic and safe*
- *CFC and HCFC free – manufactured by a totally CFC and HCFC free process*

foam sheets

Our standard polyethylene foam sheets are designed to absorb the knocks and scuffs that threaten your products during transit. They are non-abrasive, moisture resistant, lightweight and flexible, making the packaging of your products a much simpler and speedier process. Your products will reach their destination undamaged in a clean, neat package.

Bespoke shapes and sizes available on request
01977 519339

Prices and details for our standard foam sheets illustrated above are available on our website: www.custompac.co.uk

Specifications & Benefits

Sheet sizes: 2000x1200, 1200x1200, 600x600, 400x300mm

Thicknesses: 13, 20, 25, 30, 40, 50, 70, 100mm

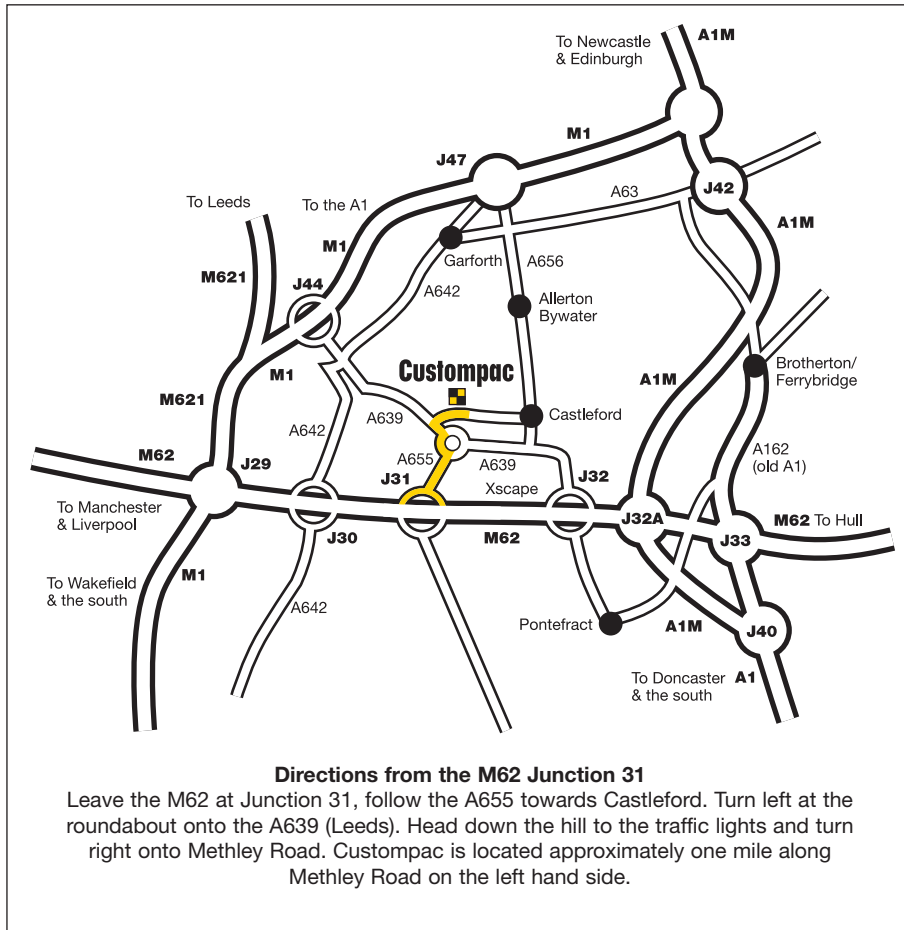

Densities: 24kg/m³

Colour: White & pink (pink antistatic - only available in 25 & 50mm thicknesses)

Fabrication Methods: Sawing, knife cut, waterjet, hydraulic pressing and heat welding

Performance: Provides quick recovery from multiple impacts whilst providing better protection and using less material than many alternative packaging solutions

Environment: Manufactured by a totally CFC and HCFC free process
