Ergonomical integrated packaging efficiency

Easypack's packstation™ is an ergonomically designed work station that enables you to efficiently pack goods in a variety of ways. Available in single or double sided versions, packstation™ offers an organised workspace where everything you require is comfortably available at your fingertips.

Manufactured in the UK, packstation™ comes complete with an integrated paper cushion dispensing machine. The double packing station allows two operators to work on opposite sides at the same time, for increased efficiency, which can be further enhanced with a range of useful options.

- 1 Strong welded steel construction
- 2 Hardwearing laminate worktop
- 3 Adjustable worktop height
- 4 Optional 2nd adjustable shelf
- 5 Additional shelf dividers
- 6 Chute outlet guard
- 7 230v multiway socket bracket
- 8 Securely, located dispensing machine
- 9 Single or double worktop option
- 10 Under worktop cable management

Total packing convenience

packstation™ offers a generous workspace that incorporates a paper cushion system conveniently located to save space and deliver the packaging directly at point of use. Adjustable height legs offer flexibility and comfort in any packing environment. With overhead storage, multi-shelf options, fully-adjustable monitor mounts and 230v multiway socket brackets, the packstation™ can be configured to best suit your requirements.

The under-bench system produces strong, flexible, ready-moulded cushions from rolls of 100% recycled paper, directly through the chute, allowing you to pack a multitude of different goods with everything conveniently to hand.

Single packstation™ showing tilting shelf feature.

Double packstation allows multiple users to work efficiently together.

Built-in features

packstation™ is not only designed to offer comfort and convenience, it is also built to offer a safe, robust working environment. The durable, welded steel design incorporates hardwearing laminate worktops, and adjustable shelving.

The paper chute is protected with a guard that prevents items from accidentally slipping down the chute, whilst the control panel is securely held centrally for easy access.

The paper cushion dispensing machine is securely guided and located in position with all cabling safely secured beneath the worktop.

Useful options

In a busy packing environment it is essential that goods can be packed quickly and effectively. packstation™ is designed to be multi-functional and practical. An additional shelf can be used for general storage with the option to add shelf dividers slotted into position for a more organised system.

Optional extras include adjustable storage bins for smaller packaging items, a fully adjustable monitor bracket and a 230v multiway socket bracket to provide a secure convenient location for connecting ancillary equipment.

“packstation™ is a user-friendly system designed for comfort and efficiency”

The freedom to pack in more ways

The multi-function design of the packstation™ allows you to pack a whole range of products using different techniques.

Whilst the packsolo® and packmaster™ systems can conveniently deliver a range of single or 2 ply paper pack options directly to the worktop, packstation™ can also be fitted with the freestyle™ paper dispenser, spiral® dispenser, or spiralpro® giving additional packing options.

Features

- Single or double workstation options
- Strong welded steel construction
- Hardwearing laminate worktops
- Adjustable height worktop and shelves
- Integrated paper cushion dispensing machine
- Useful options for increased functionality

Optional freestyle™ system.

Generous workspace is ideal for complementary packaging.

The spiral® systems provide both powered and non-powered options.

An optional shelf bracket allows you to securely attach alternative packaging systems, such as the freestyle™ system, which dispenses sheet paper on demand, allowing you to wrap or mould around goods directly into the box. A worktop clamp allows you to secure a spiral® dispenser, or a spiralpro® machine conveniently on the packstation™.

Benefits

- 100% recycled, recyclable and biodegradable paper
- Ergonomic design for operator comfort
- Fast, convenient packing at point of use
- Easy access paper loading
- Adaptable, space-saving design
- Deal direct with the manufacturer
- On-line ordering for next day delivery
- Dedicated account management
