

Easypack®

freestyle™

Invented for packing freedom

Easypack's freestyle™ is an innovative new packaging solution that allows you to choose how you pack and where you pack. The freestyle™ system automatically dispenses 100% recycled lightweight sheets of paper, giving you the flexibility to wrap, roll, mould, void-fill, cushion and secure your goods.

Manufactured in the UK, this small and highly versatile system can be conveniently located at any point of packing, either wall-mounted, affixed to a wheeled floor stand, clamped to any workstation or simply sat on your work surface. The system allows you to choose from a range of packing methods to provide the ultimate packing solution.

freestyle™

Multi-use packaging in any place you choose

Traditional paper roll dispensers are cumbersome to use and can slow down operations. The new freestyle™ system dispenses sheets of 100% recycled paper on demand at high speed, producing up to 55m per minute, as required.

Flat sheets enable operators to wrap a wide variety of goods or the sheets can be quickly moulded around in-the-box products providing robust, paper cushioning. This in turn reduces void-fill and speeds up packing time significantly.

Flexible packaging locations.

Quick and easy paper loading.

Ideal for low cost void fill.

Ideal for wrapping or protecting goods.

Features

- Automated paper dispensing
- Easy to use
- Anti-jam shield (patents applied for)
- Safe tear-off
- Produces up to 55m per minute
- Small and compact
- Fix to wall, workstation or wheeled floor stand
- Quick paper loading system
- Non-slip paper feed
- Adjustable height stand

Benefits

- 100% recycled, recyclable and biodegradable paper
- Allows for multiple packing styles
- Flexible workstation options
- Cost effective protection for your goods
- Convenient on-demand packaging
- Low running costs
- Built for long-term reliability
- Deal direct with the manufacturer
- On-line ordering for next day delivery
- Dedicated account management

“freestyle™ is the versatile all-round packing solution for any packing environment”

Technical Information

Machine weight (w/o wall bracket)	24kg
Roll weight	5kg
Roll length	200m
Roll width	375mm
Paper type	70gsm
Paper refill box quantity	4 Rolls
Pallet quantity	48 Rolls (12 boxes)
Average output speed	55m/min
Usage	On demand
Voltage	230V 1ph 50Hz
Max power input	60W

innovative • green • packaging

It is through our passion for innovation that we have, and will continue to provide high quality solutions that enable our customers to package their goods sustainably, safely, efficiently and cost effectively.

Sustainability is at the heart of everything that we do which is why, since 1992, we have provided our customers with 100% recycled packaging solutions that are 100% biodegradable and 100% recyclable.

Our packaging solutions enable our customers to transport their goods safely and sustainably, allowing them to pack more, spend less and meet their own environmental goals.
