## packmate®

# Perfectly compact for effortless green packaging

Easypack's packmate® is a compact, user-friendly void-fill packaging system, designed to fit easily into any existing packing operation. The system is designed to be economical and its easy 30 second paper loading makes it simple to use in any packing location.

Manufactured in the UK, packmate® effortlessly produces lightweight, ultra-strong paper cushions that can be easily moulded around any product, offering maximum packing efficiency.

## Outstanding protection for your goods

The packmate® system converts rolls of 100% recycled single-ply paper at high speed, creating robust, paper cushions that are ideal for a vast range of packing techniques that offer maximum protection for your goods.

Producing up to 23 metres of converted paper cushions per minute, packmate® offers exceptional savings and as total void-fill is not necessary, reduces waste and frees up valuable warehouse space.

## Features

- Converts paper up to 60 times its original volume
- Small and compact
- Quick paper loading system
- Automatic, semi-automatic or foot switch operation
- Produces ultra-strong paper cushions
- High speed paper conversion
- Set exact cushion lengths and quantities
- Choice of paper options

30 second paper loading speeds up efficiency.

The system produces strong, lightweight paper cushions of variable lengths.

Each roll of paper converts up to 60 times its original volume, saving valuable warehouse space.

“packmate® is a flexible, easy to use system that provides strong, sustainable, void-fill packaging”

## Benefits

- 100% recycled, recyclable and biodegradable paper
- Fast, convenient packing at point of use
- Total void-fill not necessary
- Packaging produced on demand
- Frees up valuable storage space
- Ultimate protection for your goods
- Deal direct with the manufacturer
- On-line ordering for next day delivery
- Dedicated account management
