

Easypack®

spiralpro®

Innovative, green packaging with a twist!

Easypack's spiralpro® is a slimline, flexible void-fill packaging system, designed to fit easily into any existing packing area. The versatile design can be clamped directly on to the side of your workstation or wheeled to anywhere in your packing area.

Manufactured in the UK, spiralpro® effortlessly produces a flexible tube of packaging material that can feed directly into the box or be easily moulded around any product for protection during transit.

Fast, efficient protection for your goods

The spiralpro® system converts rolls of 100% recycled single-ply paper at high speed into robust, spiral coils that can offer protection for a vast range of goods. The system can be conveniently set up in any packing environment either as a single unit or at multiple workstations.

Producing up to 88 metres of spiral coils per minute, spiralpro® is a safe, cost efficient, environmentally friendly packaging solution. As total void-fill is not necessary, you will reduce waste and free up valuable warehouse space.

Features

- Produces up to 88m of void-fill per minute
- Slimline and compact
- Simple to use
- Easy loading system
- Adjustable height settings
- Affix to bench or wheel to any packing station
- Unique cable management system
- Optional multi-box holder

Easy paper loading.

Ideal for direct box-fill or twist and wrap techniques.

Produces up to 88m per minute for fast, efficient packing.

“spiralpro® is a flexible, easy to use system that provides a sustainable, void-fill packaging solution”

Benefits

- 100% recycled, recyclable and biodegradable paper
- Fast, convenient packing at point of use
- Total void-fill not necessary
- Packaging produced on demand
- Versatile packing techniques
- Low costs
- Deal direct with the manufacturer
- On-line ordering for next day delivery
- Dedicated account management

spiralpro®

Technical Information

Machine weight (standard with frame)	10.73kg (approx.)
Roll weight (standard single ply roll)	4.17kg (average)
Roll length (standard single ply roll)	210m
Spiral diameter (nominal)	50mm
Output volume (standard single ply roll)	up to 0.8m ³
Output speed	88m per min.
Usage	Continuous
Voltage	230V 1ph 5Hz
Max power input	100W
Box roll quantity	6 Rolls
Roll length	210m
Paper grade	52gsm

innovative • green • packaging

It is through our passion for innovation that we have, and will continue to provide high quality solutions that enable our customers to package their goods sustainably, safely, efficiently and cost effectively.

Sustainability is at the heart of everything that we do which is why, since 1992, we have provided our customers with 100% recycled packaging solutions that are 100% biodegradable and 100% recyclable.

Our packaging solutions enable our customers to transport their goods safely and sustainably, allowing them to pack more, spend less and meet their own environmental goals.
