## P500

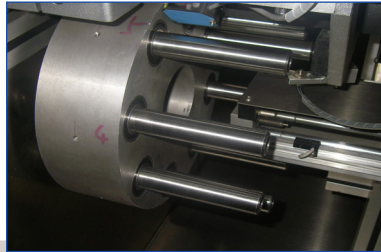

The Premier P500 is a flexible and versatile applicator designed to apply labels to a wide range of flexible tubes at speeds of up to 60 tubes per minute and offers brand owners the design freedom to create a high quality product appearance at a lower cost compared to printed tubes.

# PremierP500

The P500 features our proven and reliable stepper motor technology which combined with a Siemens PLC touchscreen control system, ensures accuracy of +/-1mm on label placement and very low running costs.

Clear and opaque labels upto 200mm wide can be applied partly or completely around a wide range of standard aluminium or plastic tubes. All parts are designed for quick and easy product changeovers.

The integrated tube feed hopper and air discharge chute give the P500 the flexibility to be installed in any part of the production facility and be controlled by a single operator. A range of thermal or hotfoil printer options are also available.

## Features

- 304 stainless steel enclosure
- Interlocked guarding to CE standards
- Stepper driven label head
- Siemens PLC control system
- Touchscreen HMI with 500 product recipes
- Tool-free adjustments for quick changeover

## Technical Data

Container diameter	19mm - 65mm*
Container height	Upto 220mm*
Max Label height	200mm
Label Reel Size	300mm Ø / 76mm core
Max Speed	Upto 60 tubes/min (dependent on label size)
Electrical	230V single phase 50/60Hz
Compressed air	60/80psi 6 bar (if coder fitted)
Overall Dimensions (LxWxH)	1200mm x 1800mm x 970mm
Weight	Approx 300Kg

\* For special applications, please contact us for more information.

## Options

- Thermal transfer/hot foil coding
- Cap/Label orientation system
- Low/end reel detector
- Bulk feed hopper elevator
