

Greenleaf 2 (330µm)

Recyclable and lightweight laminate tubes

- Recyclable* in the HDPE Rigid Plastic stream
- Assessed as 97% recyclable, class A++ by Suez.Circpack**
- Greenleaf tube has passed successfully the two tests set by the US-based Association of Plastic Recyclers*** (APR) to assess recycling-readiness
- Greenleaf 2 is a thinner, lighter web that has excellent haptics feeling
- Up-to 10% reduction of the carbon footprint
- Great barrier for exceptional formula protection
- Cost effective solution (compared to standard PBL tubes)
- Greenleaf 2 is an Albéa Patented technology
- Ideal for Hair care, In-shower care, Sun care and Body care products

STATUS: Industrial

TECHINCAL INFO:

Dimensions: from Ø30mm - 30ml to
Ø50mm - 250ml

Materials: sleeve HDPE/EVOH, cap PP or PE

Decoration options: flexo printing, cold
stamp, digital print and Perfectiseam

MANUFACTURING AREA/MADE IN: France,
Poland, United Kingdom and United States

MOQ: 25ku per reference

LEADTIMES: ex-works 4 weeks

END MARKET: Personal care / Skincare

97%
Class A++

*when collected.

**Suez.Circpack is an independent organization that assesses, advises and certifies the recyclability of packaging, based on their global know-how and real sorting tests in their facilities. Certificate Greenleaf 330 in Ø50mm, 200ml, HDPE shoulder and PE Slim. Certificate Greenleaf 250 in Ø35mm, 100ml, HDPE shoulder S13 and PE short screw cap.

***Official Recognition awarded. Test performed without cap.

Greenleaf 2 (250µm)

Recyclable tubes with exceptional barrier

- Recyclable* in the HDPE stream
- Assessed as 97% recyclable, class A++ by Suez.Circpack**
- Greenleaf tube has passed successfully the two tests set by the US-based Association of Plastic Recyclers*** (APR) to assess recycling-readiness
- Up to 26% CO₂ saving compared to current ABL
- Great barrier for exceptional formula protection, 2 levels to adapt to the formula needs
- Stronger than ABL (tensile strength)
- Greenleaf 2 web is supplied globally
- Ideal for Hand care, Sun care and Oral care

STATUS: Industrial by Q1 2020
