# What is different about us?

Wouldn't it be boring if we were all the same? At Macpac we pride ourselves on being expert engineers as well as salesmen. We offer individual expert advice to each and every customer always looking at things from a refreshing perspective.

## Initial Ideas

Our sales engineers will interpret your ideas in innovative ways with a clear understanding of the process.

## CAD Development

Our design team will create individual designs with flair and expertise.

## Tooling

Having an idea is one thing – our sophisticated toolmaking facility ensures that you can see it through to production.

## Production

Exemplary efficiency by means of enhanced production machinery.

## Finished Product

Enhancing your product – not at the expense of the environment. Fulfilling your expectations.

Plantpac is just one example of a product that went through our concept to production process. The result: an industry leading transit pack designed around the needs of the user, produced at a competitive cost.

Surecel locking clamshell  
and Plantpac horticultural  
pack ranges.

## About Macpac

Incorporated in 1973, Macpac has always had an eye on the future continually striving to combine innovation, engineering and practicality into everyday solutions. Our machine park of 11 ultra modern thermoformers makes us one of the largest privately owned thermoforming businesses in the UK. Our longevity speaks for itself, it says a lot about who we are.

Our 600 pallet capacity  
finished goods warehouse.

The latest addition to our  
thermoforming machine  
line up.

## Contact us

If you feel we could help with your thermoformed packaging requirements -  
we would love to hear from you.

Call us on **0161 442 1642** for an initial chat, or to arrange a visit from  
one of our regional sales engineers.

Alternatively, email us at [info@macpac.co.uk](mailto:info@macpac.co.uk)
