D-22 nozzle

CLEA-40

BOULE-50

NEW WKAT-44.2CAP

■ New diamond-like-cut caps make the KAT family look more brilliant. Both the inner cap and outer cap are diamond-like-cut. Vacuum metalized on the inner cap makes it further more brilliant.

NEW BTA-60K

■ The BTA-60K is a new cap of the BTA family that features a double cap. It has a top panel that looks like a cut diamond. The cap can be vacuum metalized for extra enhancement.

coming soon... Additional variations, the 30K and 50K, are currently under production.

information

For double caps of the KAT family, the use of a vacuum metalized coating on the cap's inner part (the cap in the case of the BTA-60K) is recommended.

Product name	Size(mm)			Material	Compatible Bottle / Tube / Jar / Dispenser

■ Please check the actual articles by conducting tests such as filling and resistance to the contents.

■ The size figures are standard values (before decoration and in standard color), which may differ from measurements.

■ Please note that the specifications are subject to change.

● Though KAT-D22 TUBE CAP is a purpose-designed accessory for D-22 nozzle, other caps are compatible with various bottles and cream jars. For details, please contact us.
