## DARIN

Global Darin responds to customer requirements and we will strengthen our ability to grow into an eco-friendly company that contributes to society.

Darin Co., Ltd. was the first company in Korea to develop pumps domestically. Our market share in Korea is currently 80%. Furthermore, we export to 30 countries around the world. Since 1991, Darin has continued to develop and improve production of pumps and sprayers used for packaging household products (shampoo, conditioner, cosmetics, and cleaning products). We strongly believe that we are at the forefront of container manufacturing technology in Korea.

In accordance with the management principle of quality first and customer satisfaction, we have been reborn as a proud company with abundant developmental experience and technical expertise. We have great confidence in our quality control, delivery compliance, eco-friendly product development and production. As a leading company of pump dispensers and trigger sprayers due to various eco-friendly product developments, we are satisfying both eco-friendly and economical aspects through eco-friendly development and production.

All employees of DARIN Co., Ltd. will endeavor to be aware of various environmental problems that will be raised in the future, and will make efforts to become more environmentally-friendly to meet the needs of customers and society.
