

RapTray™

RapTray™ combines a lightweight board with a film laminate. The board provides strength and a quality print surface for image and information and the film is high barrier, for sealing in freshness and protecting from contamination.

- The world's first hermetically sealed carton food tray
- Lightweight board and film laminate provide strength and high quality print surface
- Microwavable and ovenable up to 220°C
- On average, 20% lighter than a standard tray/film and card sleeve
- Easy-open design and large window for great product visibility
- Modified atmosphere (MAP) option available
- Oil-based plastics reduced by up to 85% when compared with plastic tray equivalents
- <1% residual oxygen achievable for extended shelf life
- Suitable for the chilled chain and freezing
- Excellent branding opportunities
- Widely recyclable
