

EyeC Profiler *Graphic*

EyeC Profiler
Graphic's cutting edge technology gives you 100% control of your manuscripts and artwork during the revision process.

The System

EyeC Profiler Graphic is a complete PDF proofing system for monitoring artwork changes during pre-press and the design process prior to pre-press. Now you can automatically monitor revisions made to artwork with our powerful, easy-to-use tool.

Ease-of-use

EyeC Profiler Graphic is the state-of-the-art system that inspects content including text graphically. Use EyeC Profiler Graphic to monitor changes made to manuscripts and artwork for any PDF. Keep up with product changes effectively and easily. Best of all, EyeC Profiler provides you with an easy-to-use interface.

EyeC Profiler *Graphic*

What mistakes are found?

EyeC Profiler Graphic compares two versions of the same PDF, allowing you to track changes such as:

Graphics:

- ✔ register shifts
- ✔ missing, added and shifted graphical elements
- ✔ incorrect transparencies

Text (inspected as artwork):

- ✔ missing parts of letters
- ✔ filled in letters
- ✔ smudges in text area
- ✔ missing ink
- ✔ spots
- ✔ color deviations
- ✔ wrong font
- ✔ undesired bolding or italicizing
- ✔ missing character spacing
- ✔ missing special characters
