FLATTI MASCARA

Long Lash & Curling

The fullness of bristles lets you deliver mascara **super-close to the roots of lashes** achieving long lash

01 Sleek Design

Coupling a unique flat applicator with a sleek and practical design.

02 Mimics the effects of a comb

Comb-shaped mascara brushes are small, flat, and usually plastic. Individual tines are good for exaggerating length.

03 Benefits of Long & Short bristles Lash Line-closer

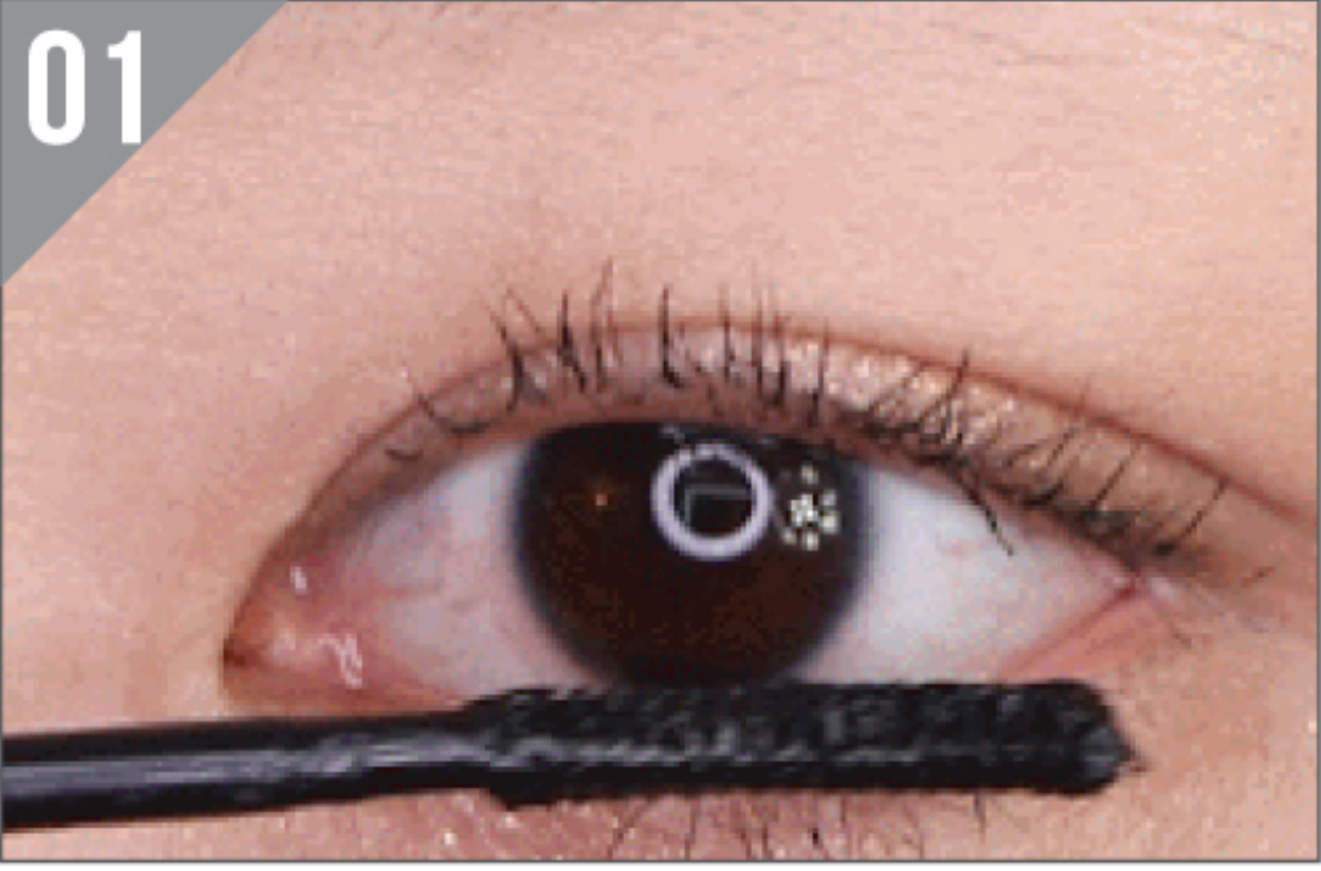

The screw-bristled brush coats even the tiniest lash, adding the Volume and is strong enough to coat lashes from root to tip adding Length.

BAKE

The special heat treatment **makes bristles very tight and firm**, provides great separation, and maximizes length and definition, providing the consumer with the ability to coat lashes thoroughly from root to tip

Recommended use

HOW TO

For the immediate lash extension effect, lift the wand and apply mascara to the upper and under lash to give a visible lengthening effect

Tip.

Naturally Volumize

Use the flat side of the brush and apply mascara to the lashes until desired volume is achieved

HOW TO

Smoothly press down the lashes with flat side of the brush for a better curling effect
