About **ACTEGA**

ACTEGA
ACTEGA develops and produces specialty coatings, inks, adhesives and sealing compounds with a focus on the packaging, printing and medical industry. Products by ACTEGA offer high-value visual appearance to materials such as metal, paper, board or plastics. Moreover, they provide them with defined functionalities, such as a high chemical resistance or physical durability. ACTEGA is one among four divisions of ALTANA.

Value Proposition
ACTEGA consists of eleven operative companies characterized by a high customer orientation. As a worldwide market leader, we provide product solution expertise, innovation and first-class services. Our focus on safety and reliability makes us a specialist for the fulfilment of applicable regulations. Due to long-term commitment and experience, we are a valued partner of the packaging and printing industry.

ALTANA
ALTANA with headquarters in Wesel/Germany is a global specialty chemical group with four divisions: BYK Additives & Instruments, ECKART Effect Pigments, ELANTAS Electrical Insulation and ACTEGA Coatings & Sealants. All of these divisions occupy a leading position in their target markets. ALTANA employs more than 6,000 people. Its impressive earning power and high growth rate make ALTANA one of the most successful and innovative chemical organizations worldwide.

Closures
Flexible Packaging
Labels
Paper-based Packaging
Publication & Commercial
Rigid Packaging
Specialty Consumer Goods
Digital Printing

Closures

Closures are essential to seal a great variety of containers. Thus, they enable the optimum protection of food and beverages throughout their shelf life. Whether you are looking for compounds, coatings or sealants, ACTEGA provides the appropriate solution.

Metal Vacuum Closures
Crown Corks
Plastic Closures
Aluminum Closures
Aluminum Long Caps

Flexible Packaging

Flexible packaging provides a simple and adaptable answer to the portioning and preservation of filling goods. There is an extensive range of packaging types made of paper, plastic materials or aluminum. By offering tailored inks, coatings and adhesives, ACTEGA is an international leader in the flexible packaging market.

Portion Packs
Bags, Pouches & Sachets
Liddings
Blister
Wrapper & Innerliner

Labels

Labels say a great deal about the product and the company they identify. They carry information and differentiate the brand. It is important that label components are of the highest quality, from the ink used to the protective/value-added finishes. Discover ACTEGA solutions for various label types.

Glue Applied
Pressure Sensitive
In-Mold
Shrink Sleeves

Paper-based Packaging

Paper-based packaging protects the filling good and fulfils a transport function. For folded boxes, ACTEGA offers water-based, UV and effect coatings. Specialty coatings that fulfil the high requirements of their industries are also available, e.g. for food or cigarette packaging. Water-based inks and coatings used for the application on corrugated board complete our product program.

Folded Boxes
Corrugated Boxes
Blister
Household Paper Products
Other Paper-based Packaging

Publication & Commercial

Publication & Commercial consists of magazines, catalogs, direct mailings, photo books and many other printed applications. Discover our broad variety of product solutions that range from primers and overprint coatings to inks, pressroom chemistries and fountain solutions.

Magazines
Catalogs
Books
Envelopes
Brochures
Direct Mail
Photo Books
Playing Cards

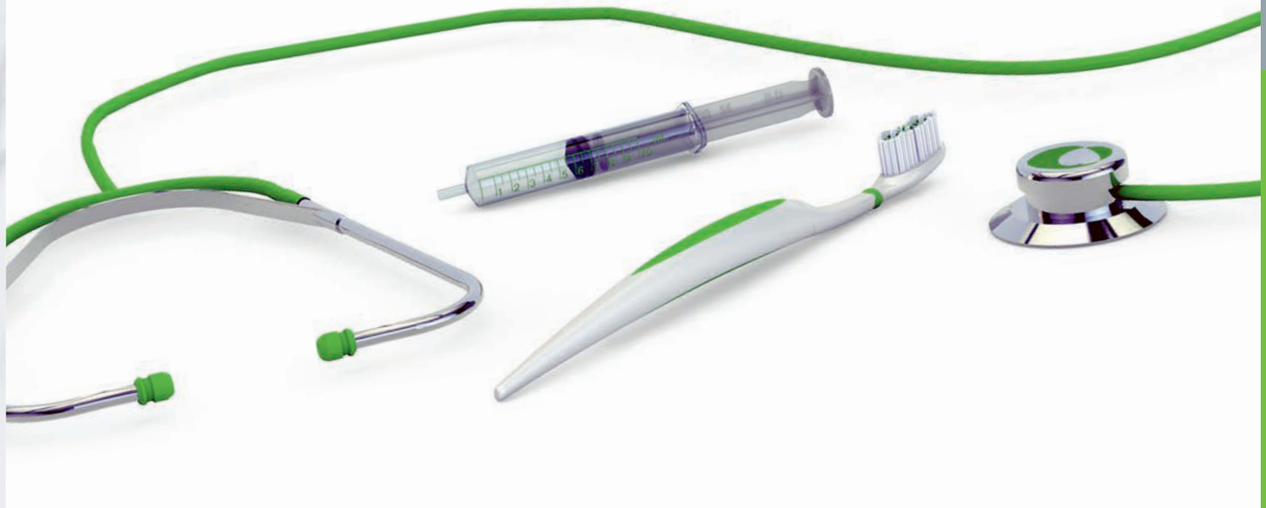
Rigid Packaging

A good heat transfer, damage protection and graphic capabilities – just some advantages of rigid packaging. Whether metal-, aluminum-, plastic- or steel-based, ACTEGA offers coatings and sealants for many rigid products. Solutions for the direct food contact (FDA-approval) are also available.

Cans
Bottles, Tubes and Drums
Aerosols
Can Ends
Custom

Specialty Consumer Goods

Articles found in the medical and pharmaceutical as well as in the health care and consumer sector represent the focus of this market segment. Specialized plastics like TPE (thermoplastic elastomer) offer unique and customized properties which fulfil many demands of the injection molding and extrusion industry.



Medical Products
Pharmaceutical Products
Personal Health Care

Digital Printing

For digital printing, ACTEGA provides a broad variety of coatings and primers. Whether publication & commercial, labels or packaging – discover product solutions for your market segment.

Technical Support **and Services**

„Every detail counts at ACTEGA. For our customers, we focus on outstanding results and sustained market success.“

Innovation

ACTEGA offers their customers highly specialized technology solutions. Thus, innovation is an important element of ACTEGA's corporate strategy. Within the framework of research and development, ACTEGA invests in generating knowledge. As a customer, you will profit from the know-how of our development departments and the practical experience of our application engineers. We test new raw materials, improve our formulas and adapt our products to new market requirements.
Our innovations are customer-driven. Combining the knowledge within entire ACTEGA, we are able to efficiently serve your industry.

Service

In order to solve problems, you have to know the market. ACTEGA has a long term history and technical expertise as a specialist in the packaging and graphic arts industry. Fast decisions, tight deadlines, frequent number of cycles: Your everyday work calls for maximum efficiency. At ACTEGA, structures are adapted to these extreme requirements. This includes worldwide support & service on site, technical assistance and laboratory analysis, direct access to reliable and skilled contacts as well as a flexible and fast production. ACTEGA has aligned its service structure and processes to the industry and is able to act quickly with reliability and integrity.

Quality & Safety

ACTEGA's main goal is customer satisfaction. We measure our work based on our customers' success. Quality control is a top priority at ACTEGA. Our quality philosophy is behind all processes and procedures.
Raw materials, production batches and the end products are carefully tested. By our products and working processes we ensure that negative environmental impacts are prevented or are kept as low as possible. Depending on company and market requirements, we offer various certifications and accreditations. At ACTEGA, you will find highly qualified departments for product safety. We offer our customers extensive know-how with regard to food, packaging and chemical regulations.
