

**The TempTrust™ Rugged is tested & qualified to maintain temperatures regardless of exposure to rough handling conditions**

## Key Features

### Durability

- Quality injection molded (pp copolymer)
- Insulated with high-grade molded polystyrene foam
- Dual padlock holes & unique slots for crimped locking cables for security
- Unique air-tight food-grade silicone freezer gasket
- Self-stopping ABS, integrated hinge
- Anti-delaminating technology
- Fittings secured with stainless steel screws, latches, & backing plates

### Ease-of-use

- Recessed ergonomic handles (ABS) on outer cooler
- Reinforced, machine-cut handles in inner case for ease of removal
- Integrated shoulder strap
- Pitched, self-draining bottom
- Stain and odor resistant
- Non-absorbent makes it easy to clean with any non-abrasive cleaner
- Compact & lightweight
- Includes hanging accessory tray
- White non-skid, non-marking pads
- Recessed "one twist" opening drain

### Multiple options available

- Available in white or tan
- Optional accessories include hanging trays & dividers

**VALUE. DURABILITY. QUALIFIED. ALL OF THESE FEATURES IN ONE PRODUCT.**

No other cooler on the market has a better reputation for durability and leak-proof protection. The cooler-of-choice for same day delivery of blood, pharmaceuticals, tissue samples, and other biologics.

Designed from the ground up to re-define what a storage container could be, independent test results as well as qualification testing from Mesa's labs reveals how the

TempTrust Rugged cooler beats the competition in every way.

## RUGGED CONSTRUCTION

Built from roto-molded, seamless polyethylene, it's tough enough to stand up to a to even the toughest of handling conditions. A full 2" of dense polyurethane foam is injected top, bottom and sides to provide hours of sustained, consistent temperatures after repeated openings and all seasons.

- Stainless steel hinges, screws, backing plates & latches enhance its reputation for durability and security.
- Integrated lid hinge and secure draw-down latches are built for years of service.

## LAB TESTED AND QUALIFIED FOR TEMPERATURE SENSITIVE REQUIREMENTS

Our labs have qualified the coolers to maintain a consistent temperature at three different crucial temperature ranges: -20° to -10° C, 2° to 8° C, & 15° to 25°C and each are qualified for a specific number of openings. This makes it ideal for blood banks, infusion clinics, labs and hospitals that require temperature consistency of their biologics, or same day delivery or long shipments, regardless of the season.

All offerings are available now, are built to hold gel packs or PCM plates, and can be shipped in any quantity.

**Qualified &  
Validated**

# TempTrust™ Rugged Coolers

## GENERAL SPECIFICATIONS

All coolers feature seamless rotationally-molded construction made of UV resistant polyethylene and unique anti-delaminating technology. The lid has 'I-beam' inserts (max weight bearing strength to prevent warping). Insulation contains the optimal density polyurethane foam. Coolers are warranted for three years.

-Multiple options available

-Other sizes available upon request

-Available in white, tan or green

-Optional accessories: hanging trays & dividers

## SPECIALIZED SOLUTIONS

**Blood Coolers**— The validated TempTrust line of rugged and EPS blood coolers will maintain a consistent temperature at three different crucial temperature ranges from 12 hours to 144 hours. This makes it ideal for many blood banks, infusion clinics, labs and hospitals that require temperature consistency of their biologics, regardless of the season or length of transport and storage.

**Drug Sample Coolers**—Pharmaceutical samples are handled in a unique way. Often stored at the sales rep's home and then transported in their car, this opens you up to risk.

The TempTrust drug sample cooler was designed and qualified to sustain a temperature range of 45C and -20C (flat line) and meets applicable compliance standards guidelines and regulations. It also has a unique inner plastic corrugated box with machine cut handles to allow users to simply remove the inner case and carry it into appointments, while leaving the larger rugged case in the car or trunk.

## ORDERING DETAILS AND SPECIFICATIONS

Cooler Type/ Volume	Internal Dimensions (inches)	External Dimensions (inches)	Net Weight	Qualified for
65 Qt	24" x 12" x 12"	29 1/4" x 16 3/4" x 16 3/4"	28 lbs	28 hrs, 34 openings 120 hrs, no openings
80 Qt	28 1/2" x 11 1/2" x 12 3/4"	33 3/4" x 16 3/8" x 17 1/2"	30 lbs	28 hrs, 34 openings 120 hrs, no openings
13 QT dry box	12" x 7" x 8.5"	15" x 10" x 11"	3.5 lbs	24 hrs, 6 openings
19 QT dry box	13.5" x 8" x 10"	16.6" x 11" x 13"	5.5 lbs	48 hrs, 6 openings
30 Qt dry box	16.5" x 9.5" x 11.5"	19.5" x 12.5" x 14.5"	7 lbs	48 hrs, 6 openings
