

Sustainable *is* Attainable

American Packaging Corporation continues its commitment to a sustainable future and is proud to announce its growing list of sustainable practices...

Partnerships & Progress

Climate Leaders

- ▶ APC has been accepted into an industry-government partnership with the USEPA called the Climate Leaders Program for the management of Greenhouse Gas (Carbon Footprint).
- ▶ This program has provided guidance and recognition to companies across many industries helping them develop and implement long term comprehensive climate change strategies.

Sustainable Packaging Coalition

- ▶ The Sustainable Packaging Coalition is an industry working group inspired by cradle to cradle principles and dedicated to transforming packaging into a system that encourages economic prosperity and a sustainable flow of materials.

Flexible Packaging Association

- ▶ The Flexible Packaging Association is one of the leading trade associations for converters of flexible packaging to the industry. The FPA provides a wealth of information to its members focusing on sustainable initiatives.

Internal Efforts

- ▶ **Sustainability Team** – focused on corporate-wide efforts in sustainable packaging materials development and source reduction.
- ▶ **Divisional Green Teams** – focused on facility improvements in minimizing waste, recycling, and energy reduction
- ▶ Investment and support of Rochester Institute of Technology's new facility – "**American Packaging Corporation Center for Packaging Innovation**"

APC is committed to social responsibility and preserving natural resources.
