

SUGARCANE PE bottles

brand customizations,
stock packaging orders

SR Packaging provides bio-PE bottles made from sugarcane GREEN PE for brand customizations and stock packaging orders.

Beauty brands can now work with SR Packaging to develop **I'm green™ bio-based sealed sugarcane PE bottles** that are fully customized according to branding requirements or immediately delivered for stock packaging orders.

Sugarcane PE bottles have the same property as the traditional PE bottles (made from fossil fuels) but with sustainable carbon cycles to power a circular economy.

Being recyclable and renewable, with a low carbon footprint, the sugarcane PE bottles present an eco-conscious image that appeals to consumers.

View [catalog](#) and look for stock packaging options or email sales@srpackaging.com to develop sugarcane PE bottles and reduce environmental impact.

I'm green BIO-BASED I'm green™ bio-based seal by [Braskem](#)

Accompanied by a verification based on C14 analysis following standard ASTM D6866, the I'm green™ bio-based seal can be applied to finished products that use Green Polyethylene in the composition.

- **Recyclable with traditional PE plastic (made from fossil fuels) components.**
- **Renewable plant-based natural resources.**
- **Lower Carbon Footprint**
- **Circular Economy**
- **Eco-Consciousness**
