GLASS CULTURE

NOIR

A conic shape with a small glass ridge on the mouth and a smooth surface, offering a wide range of decoration possibilities (silk printing, coating, metallisation...).

ANS

Regular glass ridges creating elegant light effects, and a high quality glass finish.

EARTH

Winking to the shape of the traditional flowerpot. A container conceived through the logic of correctness and simplicity, with evident possibilities of reuse. . .

ROULETTE

Semi-spheres with spectacular optic effects form the surface: this kind of engraving gives the object a modern and refined style.
