30 YEARS

We would like to take this opportunity to thank you, our valued customers, for your continued loyalty and support as we celebrate our 30th year of trading.

UK Packaging was incorporated on 11th October 1984. From humble beginnings we have seen gradual, organic and managed growth making us one of the largest independent packaging companies in the country. We approach every day with the capabilities, energy and enthusiasm that forms part of the UK Packaging culture borne out of a desire to provide exceptional service and customer satisfaction.

We continually strive to be better and look forward to trading with you
for at least the next 30 years!

Tony Dark
Chairman

Teresa Sullivan
Managing Director

MISSION STATEMENT

To provide the best packaging solutions, to fulfil and exceed customer expectation through price, delivery and customer service.

Our focus is to be a reliable partner, combining our strengths with an understanding of each individual customer.

We are dedicated to customer responsiveness and are committed to continuous innovation and constant improvement in both products and service.

To accomplish this we actively promote an atmosphere of open communication and personal integrity together with ongoing dialogue between our customers and ourselves.

ENVIRONMENTAL POLICY

It is the policy of UK Packaging Supplies Limited to ensure that its activities are managed so as to minimise any impact on the environment, so far as is reasonably practicable.

In order to achieve this:

- The Company will manage its product range to ensure that products in the range do not cause unacceptable environmental damage through its receipt, storage, and use or disposal phases.

- The Company will develop the energy efficiency of its vehicle fleets, so far as is reasonably practicable. Future purchases and leases of vehicles will take account of the environmental impact of the models selected.

- The Company will aim to improve the energy efficiency of its premises. Existing buildings will be adapted where practicable to improve their energy efficiency. When considering future purchases or leases, account will be taken of the energy efficiency of the building, and of the energy costs involved in running those buildings.

- Wherever possible the Company will seek to minimise waste:

  - Through reduction in unnecessary consumption

  - Through purchasing recycled products and packaging for its own use

  - By sending used products and packaging to be recycled

  - Through reuse of packaging received.

- Employees at new sites will be encouraged to travel to work using environment friendly methods such as car sharing or use of public transport where practical.

- The Safety & Environmental Manager is responsible for assisting management to implement the Company's Environmental Policy.

- The Company will comply with all UK environmental legislation.

- The Company will aim for continual improvement in order to lessen its impact on the environment

For and on behalf of the Directors

CARTONS

HOW TO MEASURE A CARTON

All metric measurements shown in this section are in mm

Dimensions are usually expressed as internal dimensions in mm as follows.

Length (L) x Width(W) x Height (H)

Length = The longer dimension at the opening.

Width = The shorter dimension at the opening.

Height = The dimension from the top of the opening to the base.

This is illustrated in the picture (opposite)

Height

Width

Length
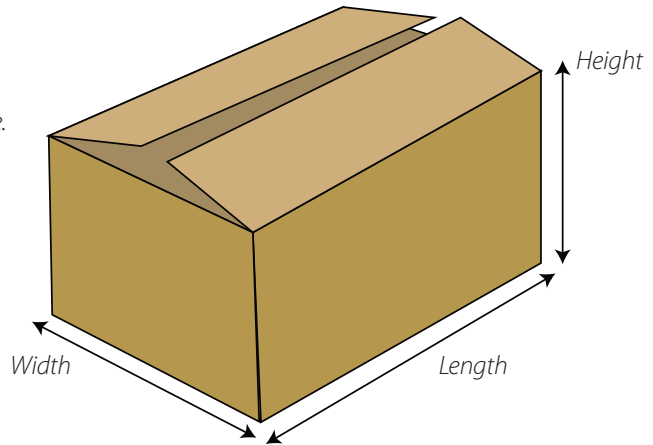

MADE-TO-MEASURE

We can produce cartons in many styles. Our made-to-measure service is available on request.
Shown here are our most popular made-to-measure carton styles.
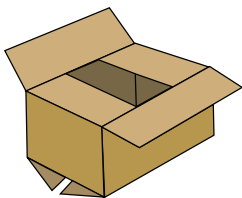

FEFCO STYLE 0201
Regular lap end case.
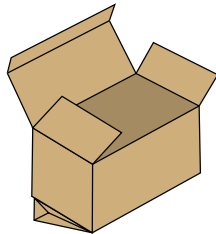

FEFCO STYLE 0211
Tuck in top and bottom.
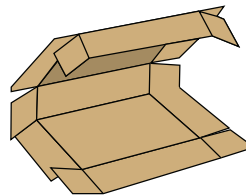

FEFCO STYLE 0409
Five panel wrap.
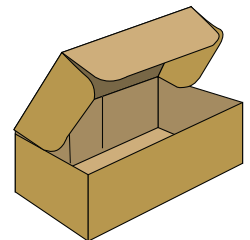

FEFCO STYLE 0426
Folding box with tuck in lid
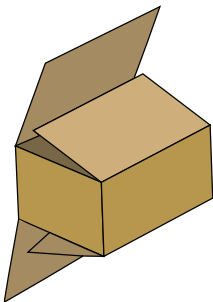

FEFCO STYLE 0203
Regular lap end case with
fully overlapping flaps.
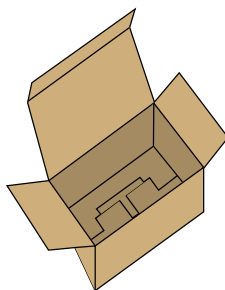

FEFCO STYLE 0215
Tuck in top.
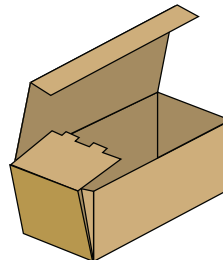

FEFCO STYLE 0421
Folding box with
locking sides.
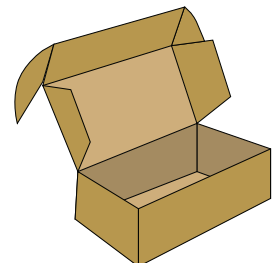

FEFCO STYLE 0427
Folding box with tuck in lid

"Working closely with UK Packaging we have always maintained clear communication and support thus ensuring projects run on time and to budget. Their technical background, attention to detail and willingness to help (at any time) has allowed us to concentrate on our work. I would recommend anyone to use UK Packaging to manage their Packaging requirements, a supplier which values us and our work."†

TISSUE TAPE - DOUBLE SIDED HIGH TACK - FINGER LIFT

Tissue tape has a hot melt adhesive on a 12g tissue with a white glassine (80g) release paper. This is a SUPERB hot melt, high tack product, which is easily conformable by virtue of its 12g tissue carrier, but is slightly less aggressive. For a wide variety of uses where moderate temperatures and low U.V. factors exist.

STOCK CODE	BOX QUANTITY	PRODUCT DESCRIPTION	SIZE METRIC
20DSFL6/12MM	60	FINGER-LIFT	6/12 x 50m

36SS37	19mm wide	25kg reel	ribbon wound

BATTERY POWERED & PNEUMATIC FRICTION WELD STRAPPING TOOLS FOR POLYPROP & POLYESTER STRAPPING

ZPX

STOCK CODE	36FWST01

The ZPX battery powered strapping tool is suitable for polyprop and polyester strapping. Strap feed is extremely simple, with both straps being inserted together. The ZPX has a tension range up to 200kgs (2000N).

BXT16/19

STOCK CODE	36FWST02

The BXT incorporates the latest battery technology so is light in weight yet still offers a longer operational cycle than competitors tools. The battery continues to deliver maximum tension levels even when in a low state of charge. Strap tension and weld strength are easily adjusted via touch sensitive controls on the electric control panel. The BXT uses a simple two push button operation, the rocker lever allows both straps to be loaded simultaneously speeding up strap cycle times.

"We have been using UK Packaging for a number of years. Their competitive pricing and own fleet of delivery vehicles makes them the ideal partner for all of our packaging needs."†

STRAPPING DISPENSERS

PRO-SERIES SD32

STOCK CODE	36SS43

SD32 Mobile trolley for ribbon wound steel strapping

PRO-SERIES NSD800

STOCK CODE	36SS47

Narrow width ribbon wound steel strapping coil holder - ideal for use in narrow isle and manoeuvring between timber packs in saw mills for example. Fully adjustable for 12mm-32mm

PRO-SERIES MW60

STOCK CODE	36SS48

MW60 Mobile trolley for mill wound (oscillated) steel strapping

PRO-SERIES HDMW60

STOCK CODE	36SS49

Heavy duty dispenser for mill wound steel or polyprop/polyester on 406 core. Large capacity metal tool/seal box

PRO-SERIES PD40

STOCK CODE	36TR0LL41

PD40 Mobile dispenser for polyprop strapping on plastic reel

PRO-SERIES PSD4

STOCK CODE	36STAND42

PSD4 Static dispenser for polyprop strapping on a plastic reel

PRO-SERIES PCS6

STOCK CODE	36TR0LL43

PCS6 Static dispenser for composite polyprop strapping on 200mm diameter x 150mm / 190mm wide core

PRO-SERIES PMC80

STOCK CODE	36TR0LL46

PMC 80 Mobile dispenser for composite polyprop strapping on cardboard core 200 mm diameter x 150/190mm wide core
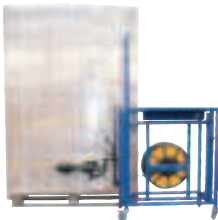

FRICTION WELD TOOL WORKSTATION

STOCK CODE	36WORKSTAT01

Many tools returned for repair have been dropped. This new work station prevents this and enables the operator to strap pallet with ease. Available for horizontal or vertical applications on a variety of coil types

PRO-SERIES PTD406

STOCK CODE	36TR0LL44

PTD 406 Mobile dispenser for polyprop / polyester strapping on cardboard core. 406mm diameter x 150mm wide core

STRAPPING DISPENSERS (CONT)

PRO-SERIES CSD3

STOCK CODE	36TR0LL45

CSD 3 Static dispenser for woven polyester strapping
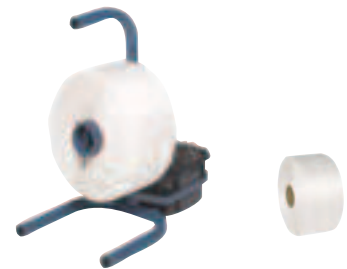

PRO-SERIES CSM20

STOCK CODE	36TR0LL47

CSM 20 Mobile dispenser for woven polyester strapping

High quality twisted polyester yarn bonded with hotmelt to produce a light, soft and flexible user-friendly strapping with the strength of steel but without the handling problems. Corded strapping presents no problems with marking or damaging pack goods and has good weather resistance. When secured with buckles it can be re-used, re-tensioned or scrapped with normal waste.

For Semi-Automatic and Automatic Strapping Machines - see Machines section p122

HAND STRAPPING COMBINATION TOOLS
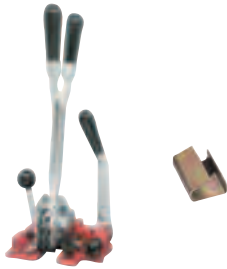

PRO-SERIES B12

STOCK CODE	36COMB20

12mm budget combination tool for polyprop strapping - available in 12mm only. Use Semi Open Seal
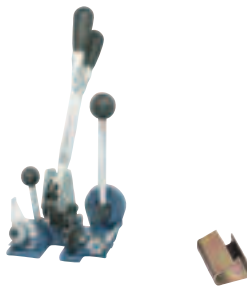

PRO-SERIES SPC12/16

STOCK CODE	36COMB23

12mm/16mm standard combi tool for polyprop strapping. Available in 12mm or 16mm. State size when ordering – use Semi Open Seal
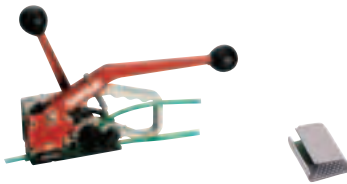

PRO-SERIES RSK

STOCK CODE	36COMB18

Lightweight Combination Tool for flat packages. (i.e. pallets, bales, crates, cases etc.) Can be used with polyprop or polyester strap. The windless tensioning system provides very high strap tension – Use Serrated Seals

HAND STRAPPING TENSIONERS

PRO-SERIES TST30

STOCK CODE	36TEN25

Standard tensioner for polyprop strapping up to 16mm.

PRO-SERIES TB301C

STOCK CODE	36TEN26

Heavy duty tensioner for polyprop strapping up to 19mm.

Chrome plated for the food industry.

HAND STRAPPING SEALERS

PRO-SERIES SGP 12/16

STOCK CODE	36SEAL26

12mm/16mm standard polyprop sealer. Please state size when ordering

EXTRUDED POLYESTER STRAPPING TOOLS

OPTIMAX HPT50

STOCK CODE	36TEN29

Heavy duty tensioner for Polyester/Polyprop strapping up to 19mm.

OPTIMAX QRS

STOCK CODE	36TEN34

Heavy duty tensioner for polyprop/polyester strapping up to 19mm. Innovative gripper mechanism and unique windlass return for faster and easier strap loading.

OPTIMAX OFH 12/16

STOCK CODE	36SEAL27

12mm/16mm heavy duty polyester strapping sealer with offset jaws. Designed for use with serrated seals for improved seal efficiency. State size when ordering. – Use SER serrated seals

email **sales@ukplc.co.uk**   online **www.ukplc.co.uk**

STEEL STRAPPING TENSIONERS

PRO-SERIES TLS20

STOCK CODE	36ST01

Standard tensioner for steel strapping up to 19mm. Designed for flat pack applications.

PRO-SERIES FP

STOCK CODE	36ST02

Heavy duty tensioner for steel strapping up to 19mm. Designed for flat pack applications.

STEEL STRAPPING SEALERS

OPTIMAX TS12/16/19

STOCK CODE	36SEAL28

Standard steel strapping sealer. Available in 13mm, 16mm and 19mm. State size when ordering. – Use Snap-On seals

STEEL STRAPPING COMBINATION TOOLS

OPTIMAX QST12/16/19

STOCK CODE	36COMB25

Heavy duty steel sealless combination tool for flat pack applications. The QST is fully adjustable for 13mm, 16mm and 19mm. This tool has reversible punching dies for extended life. Please state size when ordering. – Sealless joint - no seals required

ALSO AVAILABLE

OPTIMAX OHT12/16/19

Heavy duty steel sealless combination tool for flat pack applications. The OHT is designed for use with high tensile and regular duty steel strapping. Fully interchangeable for 13mm/16mm and 19mm. This tool has reversible punching dies for extended life. Please state size when ordering. – Sealless joint - no seals required

EARTH AWARE

Earth Aware - Minimising Packaging,
Reducing Transported Waste

Banded and flow wrapped bundles of bubble lined mailers removing the need for outer corrugated packaging.

• Available in sizes CD / 0/1/2/3/4 – AirKraft, gold and white

• Increased pallet quantities - improving transport and storage costs

• Removal of the corrugated outer box - less handling, aids with packaging waste disposal and reduces cost

• Bundles are layered giving a robust and strong pallet for transportation

• Neat, clean and easy to use packaging format

• Available as Jiffy branded product or with bespoke print (min order quantity for print applies)

OPTISEAL INDUSTRIAL HEAT SEALING MACHINES

The Optiseal Sealer can be mounted on a stand which comes complete with a film holder to allow the film to be dispensed on demand. The foot pedal connects to the sealer to provide a hand free sealing operation.
In addition to the work stand there is a work table and bag support available that holds the product whilst the film is being sealed. The adjustable bag support enables the operator to make uniform sized bags.

TRANSPORT ACCESSORIES

POPULAR PACKAGING INDUSTRY PALLETS

The three most popular pallet specifications for the packaging industry are a Type 1, Type 7 and Type 4. As a guide, when used in conjunction with a standard cardboard box we say a Type 1 can hold 400-600Kg, and Type 7 300-450Kg and a Type 4 150-300Kg. These pallets can be designed to hold up to 1500Kg and our design team can assist in achieving a fit for purpose specification for you. It is possible for any pallet type to be supplied to the exact size requirement, to the nearest mm.

All pallets can be supplied in 3 grades:

1. Unseasoned: Timber used is fresh sawn so moisture contents can be over 50%.

2. Heat Treated: As per above but pallets are heat treated through kiln chambers to comply with ISPM 15 global export regulations. Depending on how and where the pallet is to be used there is a risk of mould growth on the pallets. We therefore recommend kiln dried pallets when HT is required (below).

3. Kiln-Dried/Heat Treated: Pallets are Heat Treated to ISPM 15 regulations and kiln dried to an average moisture content of 18% which drastically reduces the chances of future mould growth or timber staining. It also ensure no moisture is passed to the product being stacked on to the pallet.

Type 7 - 3 leg pallet

Type 4 - 12 block pallet

Various sizes and styles are available. Please call for details on 020 8801 8144.

Type 1 - 12 block pallet

WEBBING

50mm webbing has a breaking strain of 5 tonnes and is available in Orange or Blue.

These systems are available with:

Claw Hook, Delta Link, Open Rave Hook or endless. They have many uses in transportation in the automotive industry and the marine industry, they can be utilised also into many warehouse applications.

25mm Webbing is available in Black, Navy, Royal Blue, Orange, Red, Yellow or White. These systems are available as Ratchet Assemblies with:

Claw Hook, Plastic Coated S Hook or endless. They have many uses around the business and home and leisure industry.

Cam Buckle assemblies are an endless strap with the end of the webbing cut at a 45°. This aids the threading of the webbing through the buckle making it much easier to use. Many and varied uses, from luggage and suitcases, to roof racks on cars to name just a couple.

British made to Standard BS5759

TARPAULINS

Our economy polyethylene tarpaulins are widely used as a temporary cover with hundreds of different uses

- 100% Waterproof
- Rotproof & Shrinkproof & UV Protected
- Lightweight & Easy to Handle
- Eyelets Every Metre
- Other sizes available on request
- Colours Available: Blue or White

Woven 100% waterproof polyethylene tarpaulins / ground sheet are widely used as a temporary cover with hundreds of different uses. Our tarpaulins are lightweight and easy to handle, rotproof, shrinkproof , and UV protected.

Each tarpaulin is manufactured from tough woven polyethylene which is then laminated on both sides, eyelets are spaced approximately every metre.

Every tarpaulin is packed in a polythene bag with an attractive colour insert. All the above sizes are approximate and are cut sizes. Cut size is an industry standard term for the size of the sheet before it is made into a tarpaulin, therefore some reduction/variation in size is to be expected.

STOCK CODE	SIZE METRIC

MACHINES

VOID FILLING MACHINES

Intellipack have introduced the industries most advanced foam-in-place packaging systems. Never has there been a solution quite like this transforming mature technology into a cutting edge approach.

IntelliPack SmartBAGGER® and SmartSHOT® dispensing systems are innovative, polyurethane foam packaging technology, ideal for high-volume, medium-to-large applications that require protective void fill, blocking and bracing or cushioning offering excellent protection during shipping and handling process.

Each system incorporates reliability, ease of use and ergonomic design and leading edge technology, the result is foam-in-place packaging solutions so smart they minimise operator input and ensure the virtual elimination of unexpected downtime.

Intellipack SmartCHAMBER™ - variable foam filled tubes are ideally used for bottom cushioning, end caps, corner protection, wraps or to fill awkward voids.

PILLOW PACK GREEN

Wide width air cushions: PILLOW PAK GREEN inflates to 670mm allowing to protect large products

- *High resistant film: the 44 micron thick film offers, in combination with our air transfer technology, superior cushioning and protection to the products*
- *Contains post-consumer recycled* high density polyethylene and are 100% recyclable, helping to reduce the impact on the environment*
- *Fast and easy to use, the PILLOW PAK system produces 22 meters of air cushions per minute*
- *Cost effective: prevents over wrapping and saves on transportation. 26 mm PILLOW PAK GREEN bubble height reduces number of wraps while providing the same cushioning protection as standard bubble film. Also, 2.5 pallets (60 rolls) of PILLOW PAK GREEN are equivalent to 1 truck load of bubble wrap*

Introducing the ultimate inflatable, on-demand hybrid cushioning system...

AIRSPEED™ HC SYSTEM INFLATABLE SYSTEM

SYSTEM SPECIFICATIONS

Hybrid Cushioning Machine

Power: Standard 110
Draw: Less than 5 amps

Standard Film

SYSTEM	ROLL WIDTH	ROLL LENGTH	MATERIAL
AirSpeed™ HC	16.75"	1,250'	HC Small
AirSpeed™ HC	17.25"	1,250'	HC Large

Fast: Produce pillows at speeds 75 feet a minute.

Easy to use: Simply load film and press start.

Lower packaging costs compared to other high end packaging materials: Reduce storage and material handling; low to no maintenance costs.

Clean: No harmful and messy foam-in-place chemicals to use and dispose of.

Unique Adjustable Air Pressure: Fill cushions to your specific height needs.

True Perforations: Sheets are perforated for easy-to-tear, quick packing with no loss of cushioning due to perfs.

Excellent Film Memory: Able to retain its shape and protective qualities when folded and manipulated or wrapped.

Space Savings: One pallet of AirSpeed™ HC film can be converted into the equivalent protection of almost one-and-a-half truckloads of traditional bubble! No need to store drums of chemicals like Foam-in-Place.

Great Clarity: Transparent material is more appealing than solids such as foam in place.

The AIRSPEED™ HC SYSTEM is ideal for these packaging applications.

• **Wrapping and Packing**
• **Large Volume Cushioning**
• **Blocking and Bracing Applications**
• **Customers looking to reduce storage and material handling**
• **Retail customers looking for film clarity**
• **Can be coupled with the AirSpeed™ 5000 to handle side or bottom fill**

Side Fill Box for Block and Brace.

Use as Top Pad or Bottom for Small Void Fill.

AIRSPEED 6000 INFLATABLE SYSTEM

The Airspeed™ 6000 system offers speed, versatility, durability and functionality. Our reliable machines and durable film create void-fill packaging cushions on demand.

Chains of air cushions are created using ambient air and an internal electric blower. This eliminates the need for an external air supply - such as a compressor - making the unit truly portable. Only a 230v electric power source is needed to run this machine. Simply plug in the machine, load the film and go.

AirSpeed™ 6000 can be used as a bench-top, standalone unit or in conjunction with a portable stand and Air Binz dispensing containers. The unit is ideal for applications requiring both speed and flexibility.

Blazing Speed:
Over 16 metres per minute; no need for bulky storage/dispensing systems.

Portable
No compressed air needed.

Compact
Easily fits into any packaging operation, large or small.

Easy to operate

The Airspeed Smart system presents a convenient and cost-effective way to create inflatable cushions on-demand for compact or lower demand packaging operations.

Our new lightweight system offers portability, durability and functionality. With great ease, Smart™ turns flat, easy-to store, market leading performance film into lightweight, non-abrasive void-fill cushioning.

UK Packaging's dedication to our customers includes a team of Technical Specialists to assist in set-up and support of the AirSpeed® line of inflatable packaging products.

With a broad line of packaging products, our Consultative Sales Team is equipped to recommend the right packaging solution for your application.

GEOSPEED QUANTUM

A Quantum leap forward:
THE NEW STANDARD IN PAPER PACKAGING SYSTEMS

The GeoSpeed® Quantum™ paper packaging system is the perfect choice for those seeking an eco-friendly and cost effective solution for hard to package items, small voids, or sharp and unboxed items.

Fast, durable, and simple to operate, the Quantum converts rolls of recycled content (RC) paper into tightly crumpled paper cushions for void fill, cushioning, wrapping, or blocking and bracing purposes.

GeoSpeed Quantum features, benefits, advantages :

User Friendly: *intuitive design, simple controls, quick and easy paper loading.*

Reliable: *patented design minimizes paper jams, optimizes uptime and productivity.*

Fast: *industry leading 150" per second of output.*

Durable: *made in the USA with long lasting parts.*

Portable: *lightweight and easy to move.*

Optimal Ergonomics: *simple adjustability of machine height, paper dispense angle, roll position, and run speed allows the operator to configure the system to comfortably fit their needs.*

Versatile: *can be used on a floor stand or mounted directly to a pack table.*

PAPER TYPE	WEIGHT
305mm x 800m, 50gsm recycled kraft paper	12.2kgs

TAPE SEALING MACHINES

OPTIMAX SK2 SEMI-AUTOMATIC CASE TAPER

The SK2 Case Taper provides safe and effective sealing of the top and bottom cartons simultaneously. High quality, rugged proven design manufactured in the EU, meeting CE392 machine directives. A full range of uniform and random case tapers available.

Range of accessories also available.

Features include:
- *Manufactured in the EU*
- *Proven reliability*
- *Renowned, reliable K11 Taping Head*
- *2000mtr roll tape holder*
- *Emergency stop button*
- *Flap compression rollers*
- *Self sealing lateral box guides*
- *Single phase 240v power supply*

Output: 800 boxes per hour

For sealing cartons to the dimensions of :
Min 150L x 140W x110H
Max: ∞L x 500W x 500H
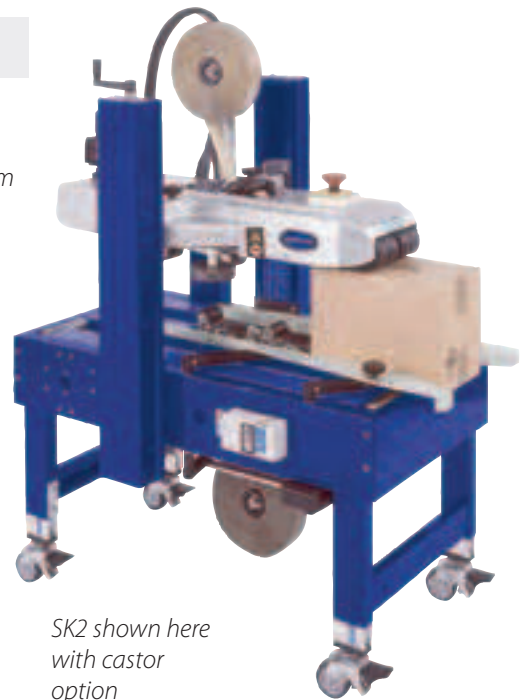

SK2 shown here with castor option

OPTIMAX SR4 SEMI-AUTOMATIC RANDOM SIZE CASE TAPER

The SR4 is an air assisted model which requires an air supply.

For sealing random size cartons to the dimensions of :
Min 150L x 140W x110H
Max: ∞L x 500W x 500H

OPTIMAX FLEXIBLE CONVEYOR SYSTEM

STOCK CODE	PRODUCT DESCRIPTION	WEIGHT
GTL400/3	1.5 metre to 4.5 metre flexible outfeed conveyor. 400mm wide, adjustable height with locking castors	62kg

SHRINK SYSTEMS

Higher throughput is offered by these systems which have controllable solenoids, that ensure consistent sealing and are fitted with lockable castors for easy movement to where they are needed.

AC-550

Combined "L" sealer 550mm x 420mm with shrink hood

- Seals and shrinks up to 9 packs/min simultaneously using operator friendly controls, mobile with lockable castors
- Maximum centrefold film width 500mm, maximum pack height 250mm
- Power supply: 220v/50Hz
- Dimensions: L1210mm x W730mm x H1140mm Weight: 100kg

STOCK CODE	WEIGHT
AC-550	100.00kg

AC-770

Combined "L" sealer 700mm x 470mm with shrink hood

- Seals and shrinks up to 8 packs/min simultaneously using operator friendly controls, mobile with lockable castors
- Maximum centrefold film width 550mm, maximum pack height 250mm
- Power supply: Single phase 16amp
- Dimensions: L1510mm x W770mm x H1160mm Weight: 120kg

AC-770	120.00kg

HS35-KT20-ST

"L" sealer with motorised shrink tunnel for package size up to 350mm x 300mm x 140mm

- Parcels can be continually sealed and placed onto the conveyor for automatic shrinking
- Tunnel dimensions W350mm x H120mm. Maximum centrefold film width is 400mm
- All operating temperatures are controllable
- Dimensions: L460mm x W700mm x H1350mm Weight: 112kg

STOCK CODE	WEIGHT
HS35-KT20-ST	112.00kg

STRAPPING MACHINES
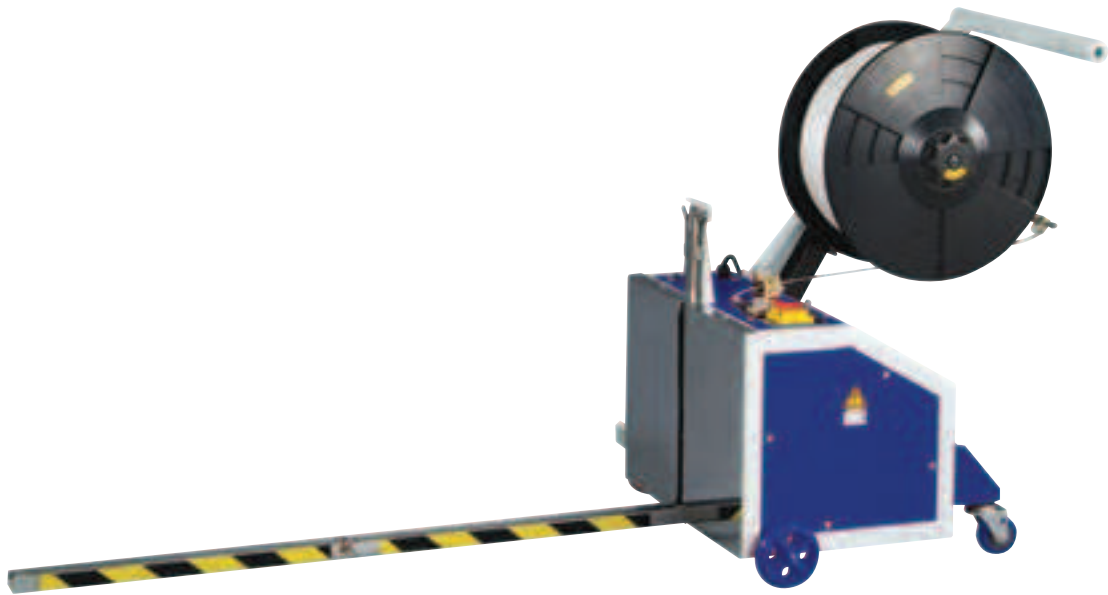

SEMI AUTOMATIC STRAPPING MACHINE (PS500)

Optimax PS500 semi-auto pallet strapping machine for vertical applications

- *eliminates the use of manual tools and strap dispenser*
- *can easily be moved to any strapping location*
- *provides ergonomic and cost-effective low-volume vertical pallet strapping*

Main Features

- *Suitable for a wide range of applications, from corrugated carton packs to concrete blocks*
- *Lightweight and compact for easy manoeuvrability*
- *Can strap low pallet loads down to 280mm total height*
- *User-friendly and effective strap feeding mechanism*
- *Weld cooling time can be extended to ensure optimum weld efficiency*

Control panel

The controls are simple to use and ergonomically located on the upper machine panel.

Feed switch

The strap feed switch is handily located above the coil holder for added ease of operation.

SEMI AUTOMATIC STRAPPING MACHINE (AS400)

Optimax AS400 stainless steel side seal semi automatic strapping machine

The AS400 is manufactured in a stainless steel cabinet with a side sealing function for applications such as marine and horticultural environments or timber yards, where water or debris from the pack would cause damage or corrosion to the mechanism of a standard semi automatic strapping machine.

The AS400 is supplied with stainless steel press bar. Front and rear bar for maximum reliability.

SPECIFICATIONS

model	AS400
name	stainless steel side seal semi auto machine
dimensions	675mm width x 1045mm depth x 1625mm height
tension	15 - 45kg
strap width	6mm - 15.5mm
strapping speed	2.5 seconds / cycle (60Hz)
power supply	230v / 50Hz
power consumption	0.25kw

SEMI AUTOMATIC STRAPPING MACHINE (PLR100)

Optimax PLR100 low level semi automatic strapping machine

The PLR100 is a reliable, semi-automatic strapping machine with a low-level table top height designed for heavy export packs and large packages.

Simple to operate, feed the strapping around the package and the machine will automatically tension and heat seal the strap.

SPECIFICATIONS

model	PLR100
name	low level semi automatic strapping machine
dimensions	1476mm width x 582mm depth x 355mm height
tension	15-45kgs
strap width	6mm - 15.5mm
strapping speed	2.5 seconds / cycle (60Hz)
power supply	230v / 50Hz
power consumption	0.25kw

AUTOMATIC STRAPPING MACHINE (TP-6000-CE)

STOCK CODE	PRODUCT DESCRIPTION
36SM01	AUTOMATIC STRAPPING MACHINE

Automatic strapping machine for polypropylene strapping. Pedal or sensor activated. Alternative arch sizes available to order.

- *Strapping width: from 8mm - 15.5mm wide*
- *Arch size: Length: 850mm x Height: 600mm (set for 12mm wide strapping)*
- *Reliable machine, easily maintained*
- *Capable of 27 cycles per minute using machine grade PP strapping*
- *Machines are RoHS compliant*
- *Dimensions: Length: 1430mm x Width: 620mm x Height: 1540mm*
- *Weight: 225kg*

AUTOMATIC STRAPPING MACHINE (TP-702)

STOCK CODE	PRODUCT DESCRIPTION
36SM02/56	AUTOMATIC STRAPPING MACHINE for 5mm/6mm strapping
36SM02/9	AUTOMATIC STRAPPING MACHINE for 9mm strapping
· 36MS02/12	AUTOMATIC STRAPPING MACHINE for 12mm strapping

Automatic strapping machine for polypropylene strapping. Pedal or sensor activated. Alternative arch sizes available to order.

- *Can use three sizes of strapping widths: 5mm/6mm, 9mm or 12mm (see Stock Code above for 3 strapping widths)*
- *Arch size: Length: 650mm x Height: 500mm*
- *Foot, button or optional photo-eye operation*
- *Reversible control panel allowing operation either side*
- *Strap dispenser allows waist high loading, easy access to strap guides*
- *Dispenses 65 straps per minute*
- *Designed with less moving parts and the latest DC brushless motor technology for reliability*
- *Machines are RoHS compliant*
- *Table adjust for height between 820mm to 920mm*
- *Dimensions: Length: 840mm x Width: 652mm x Height: 1325-1425mm*
- *Weight: 5/6mm and 9mm at 157kg, 12mm at 166kg.*

SEMI-AUTOMATIC STRAPPING MACHINE (TP-202CE)

STOCK CODE	PRODUCT DESCRIPTION
36SM03	SEMI-AUTOMATIC STRAPPING MACHINE

Semi-automatic strapping machine with an open frame for Polypropylene strapping for more efficient parcel strapping at an economical price

- *Strapping width: from 6mm - 15.5mm wide*
- *Capable of 24 cycles per minute with manual tension control and height adjustable legs for 930mm maximum height*
- *RoHS compliant and supplied ready to go with 12mm strapping fitted*
- *Dimensions: Length: 902mm x Width: 586mm x Height: 760-930mm*
- *Weight: 85kg.*

STRETCH WRAPPING MACHINES

ECOPLAT BASE

TURNTABLE STRETCH WRAPPING MACHINE

This machine is ideal for companies looking to move from wrapping by hand to using a stretch wrapping machine.

The control panel is simple to understand and allows easy use of the many available wrapping functions.

It will take the strain out of wrapping by hand in a simple effective manner.

STOCK CODE	PRODUCT DESCRIPTION
50TSWM01	ECOPLAT BASE TURNTABLE STRETCH WRAPPING MACHINE

ECOPLAT PPS

TURNTABLE STRETCH WRAPPING MACHINE

This machine is a step up from the BASE for the more advanced machine wrappers.

The control panel has more functions than the BASE, it uses Power Pre-Stretch (PPS) film increasing the yield on your film.

It is ideal for companies with light crushable items or wrapping 20-30 (or more) pallets a day.

STOCK CODE	PRODUCT DESCRIPTION
50TSWM02	ECOPLAT PPS TURNTABLE STRETCH WRAPPING MACHINE

ROTOPLAT 507 PDS

TURNTABLE STRETCH WRAPPING MACHINE

This machine is the most popular pallet wrapper in the UK and is the choice for many major blue-chip companies.

The control panel has advanced functions and can be set-up for all requirements from very light to very heavy loads in all shapes and sizes.

It uses Power pre-stretch film and will increase the yield on your film.

The Rotoplat 507 PDS is the top end of Stretch Wrapping Machines for large companies.

STOCK CODE	PRODUCT DESCRIPTION
50SWM03	ROTOPLAT 507 PDS TURNTABLE STRETCH WRAPPING MACHINE

ROBOT S6

SELF PROPELLED ROBOT FOR STRETCH WRAPPING

This machine is the ideal solution for companies where space is tight.

It is battery operated and can be easily moved from one load to another.

The control panel is easy to understand and allows you to create and store programs quickly and easily.

The Robot S6 is capable of wrapping any type of product, shape or size.

TRANSIT PACKAGING MONITOR LABELS

We now stock a range of Transit Packaging Monitor Indicator Labels

Tip'n Tell is a brightly coloured device that product handlers quickly recognise. It includes a system of labels that warns all handlers of a monitoring device. The Tip'n Tell can be mounted on the inside or outside of your shipment. The Tip'n Tell is activated by pulling the bar in the centre of the device. Attach it to either your product or shipping container by removing the liner on the back to expose the adhesive. You may also attach the Tip'n Tell by nailing or stapling it to the container. If your product is tipped slightly less than 90 degrees or beyond, the clear arrow becomes permanently blue. Your customer can then immediately check for damage.

TIP'N TELL INDICATOR

UK Packaging Supplies Ltd
TERMS AND CONDITIONS OF SALE

1. SELLERS CONDITIONS OF SALE APPLY
These terms and conditions of sale shall apply to and govern. Any contract between the Seller and the Buyer to the exclusion of any conditions contained on or in any order form letter, receipt acknowledgement, or the Terms and Conditions shall be effective unless expressly agreed by the Seller in writing.

2. PRICES
All price quotations are calculated from the costs applicable at the date of such quotation. If there is any increase in such costs between the date of quotation and despatch the Seller may increase the quoted price accordingly. On printed orders the price confirmed excludes artwork etc which may be charged separately.

3. QUOTATIONS
Quotations indicate the price at which the Seller would be willing to supply goods if a written order is placed within 30 days. Otherwise they are not offers to supply goods and any order placed on the basis of a quotation must be accepted by the Seller for a contract to arise. Clerical errors are subject to correction.

4. DELIVERY
a) Unless otherwise agreed in writing the Buyer shall be bound to accept goods ordered by him on being notified by the seller that they are ready for delivery.
b) If the buyer fails to take delivery at the time required by the Contract the Seller shall be entitled without prejudice to any rights it may have to treat the Contract as at an end and to resell the goods, or to invoice the goods whereupon payment in full shall become due and in either case charge at rates giving an economic return for the handling and storage of goods from the invoice date to the eventual date of delivery to the Buyer or disposal elsewhere as the case may be and the Buyer shall be liable to pay any premium in respect of the insurance of such goods from the date on which he is notified that the goods are ready for delivery.
c) If goods are contracted to be delivered by instalments, late delivery of one instalment shall not entitle the Buyer to reject any other instalment under the contract.
d) (i) Any date of delivery given by the Seller to the Buyer shall be an estimate only and while the seller will endeavour to comply with any such date it shall not be responsible for late delivery.
(ii) Without prejudice to the generality of the foregoing the Seller shall not be liable for late delivery of failure to deliver through any cause which is beyond the control of the Seller.

5. RISK
All Goods are at the Buyers risk from the time of delivery or collection by the Buyer or his agent, or delivery to the place stipulated in the contract.

6. RETENTION OF TITLE
a) Goods delivered to the Buyer shall remain the property of the Seller until all sums due to the Seller from the Buyer in respect of goods or otherwise are paid to the Seller. In the event of any default by the Buyer in payment of any such sum the Seller shall be entitled to retain possession of the goods.
b) Where payment is affect by cheque the Seller shall not have received payment until that cheque has been honoured and the amount credited to the Seller's bank account.
c) Until sums due from the Buyer to the Seller have been paid or until resale in accordance with sub-paragraph d) of this clause the customer will keep and mark the goods in such a way as to show they are property of the Seller and shall hold the same as bailee of the Buyer.
d) The Buyer shall be entitled as agent of the Seller before the property and the goods have passed (but subject to any lein or right of retention on the part of the Seller).
(i) To resell the goods or any part thereof but shall pay to the Seller the proceeds of the sale or such part thereof as maybe necessary to pay all sums due to the Seller from the Seller and until such payment should hold proceeds from the sale on trust for the Seller.
(ii) To use the goods in the ordinary course of his business.

7. LAW
Any agreement incorporating these Conditions shall be governed by English Law.

8. PAYMENT
All sums due to the Seller shall be paid by the last day of the month after the month of delivery. In fault the Seller may:
a) Suspend delivery under all or any contracts with the buyer.
b) Charge interest at the rate of 5% over Lloyds Bank Minimum lending rate from the day following that on which payment was due.

9. TERMINATION
The Seller shall have the right immediately to terminate the contract at any time upon occurrence of any of the following events.
a) If the Buyer commits any act of bankruptcy or compounds or makes arrangements with his creditors or executes a bill of sale on his goods or any of them or if any execution or distress is levied upon the goods of the Buyer.
b) If the Buyer being a company is wound up either compulsory or voluntarily or a receiver of its assets is appointed.
c) If the Buyer commits any breach of contract.
Upon any such termination the Seller shall have the right to be paid the price of goods manufactured or sold prior to the date of termination and the Buyer shall take over and pay for at the current price such materials as have been allocated by the seller to the contract.

10. CONSEQUENTIAL LOSS
Without prejudice to the generality of the foregoing provisions the Seller shall not in any event be liable to the Buyer for any indirect or consequential loss or damage.

11. FORCE MAJEURE
The Seller shall not be liable for failing to perform the contract whether wholly or partly by any circumstance or circumstances outside the Sellers control.

12. FITNESS FOR PURPOSE
Where the goods are required for a purpose other than the normal or usual purpose for which such goods are commonly supplied then no condition or warranty of fitness for the purpose of the goods shall be implied unless the Buyer has made known to the Seller in writing the exact purpose for which the goods are intended to be used, on or before the making of the contract.

13. SIZE OF MATERIALS
Unless specifically warranted (in writing) as accurate sizes all sizes referred to on price lists, estimates or brochures are approximate only.

14. AVAILABILITY OF GOODS.
Any quotation given by the Seller shall not constitute an offer for sale or a representation that those goods are available for sale.

15. QUANTITY
The Seller cannot guarantee exact quantities in respect of any goods supplied and shall be deemed to have fulfilled its obligations under the contract by delivery or manufacture of a quantity plus or minus 10% of the quantity specified in the contract and the buyer shall pay the contract rate for the actual quantity delivered.

16. PRINT ORIGINATION WORK
All material produced in origination work remains the property of the Seller unless paid for by the Buyer.

17. PROOF READING
No responsibility shall be accepted by the Seller for any errors in proof submitted to and approved by the Buyer.

18. DIMENSIONS AND GAUGE
Except where agreed in writing the Seller shall be deemed to have fulfilled its obligations under the contract by producing goods within the tolerances laid down by the Packaging and Industrial Films Association (P.I.F.A.). In general sizes will be controlled to within plus or minus 3% and film gauge to within plus or minus 10%. Corrugated cartons are subject to a manufacturers tolerance of plus or minus 3-5mm on the creases.

19. INK COLOURS
Whilst the Seller will take all reasonable steps to try to match colour this cannot be guaranteed and the contract shall be deemed to have been performed by delivery of goods of the general shade and density of colour stipulated.
