# Coster Pharma

#### INTEGRATED PHARMA SOLUTIONS

Coster is the only company worldwide able to supply *integrated aerosol and spray packaging solutions*, including:

- MDI valves and inhalers for HFA & CFC propellants;
- 20 mm & 1" valves and actuators for several applications;
- · Spray pumps and actuators;
- Bag-On-Valves (BOV) and actuators;
- Filling lines for inhaled, nasal, oral and topical products.

Coster Pharma ensures that its technology meets the pharmaceutical industry's stringent quality standards and product safety features at competitive prices, and offers a product portfolio suitable for a range of nasal, oral and inhaled drug delivery treatments. The Coster Research & Development Center offers formulation and re-formulation services for selected aerosol and spray OTC products.

#### ADDED VALUE

Over the past 40 years, Coster has acquired extensive experience in the conception and manufacture of high-quality customized packaging systems, jointly developed with its multinational customers. Coster Pharma offers development and manufacturing services to customers, enabling them to enhance existing products and to develop new ones to meet the demand for innovative actuators complying with the pharmaceutical industry's rigorous requirements.

#### QUALITY: COSTER MAIN FOCUS

Continuing investments in injection moulding technology and assembly machinery allow real-time and 100% in-process controls. Advanced devices and laboratory equipment enable continuous monitoring of quality critical variables. Sampling procedures according to a QC Plan complete the internal checks. The products manufactured are delivered with the quality standards required by customers.

#### Pharmaceutical products with Coster components

Comprehensive Packaging Solutions for Pharma Products MDI valves and actuators for CFC and HFA solutions & suspensions

#### ASTHMA INHALER WITH ROUNDED MOUTH PIECE

- 2-piece asthma inhaler for different can sizes
- Suitable for 20DR valves
- Different spray holes available
- Color upon request

TWO-PIECE ASTHMA INHALERS

- 2-piece asthma inhalers
- for 19 ml cans
- For 20DR & 20DPH valves
  Different spray holes available for HFA or CFC propellants
- Color upon request
- Front pad for company logo
- Ergonomic design

#### 20 DPH VALVE

- MDI valve for inverted use
- For suspensions and solutions
- Suitable for HFA & CFC-propelled formulations
- Filling through the valve: single and double stage
- Dosages: 25, 50, 63, 100 µl
- Stem block Ø: 3.18 mm (2.8 mm upon request)
- Shot weight accuracy and consistency
- Easy and fast repriming

- Reduced contact area between external gasket and formulation
- Very limited moisture ingress
- Low-extraction elastomers

used: extractables studies available

- EP/USP compliant plastic components and gaskets
   Quality critical variables
- 100% in process controls ISO 8 Clean Room
- manufacturing
- ISO 15378:2006 certification in progress: GMPs applied to Primary Packaging Materials for Medicinal Products

#### 20 DR VALVE

- MDI valve for inverted use
- Suitable for HFA
- & CFC-propelled formulations
   Double stage filling
- over the internal gasket
- High filling speed
- Dosages: 50, 65, 75, 100 µl
  Stem block Ø: 2.8 mm
- Shot weight accuracy and consistency
- Very low LOP (Loss of Prime)

- Very limited moisture ingress
- Low-extraction elastomers used: extractables studies available
- Quality critical variables
   100% in process controls
- FDA-approved plastic components
- EP / USP compliant gaskets
- Clean Room manufacturing upon request

# High Quality at Competitive Cost

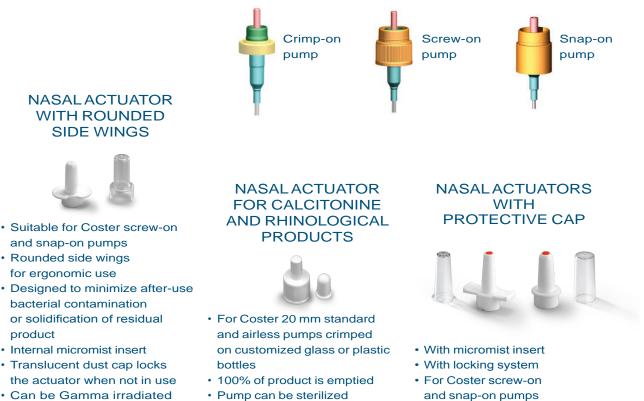

Pulmonary Applications

Pumps, valves and actuators for solutions and suspensions

product

#### PUMPS FOR PHARMACEUTICAL APPLICATIONS

Coster manufactures a wide variety of pumps granting consistent spray performance, accuracy and dosage. Pumps are available in the following formats: crimp-on, snap-on and screw-on, with different dosages and suitable for use with various plastic / glass bottles. Coster pumps can be used in combination with different nasal actuators.

#### VALVE AND NASAL ACTUATOR FOR PROPELLED FORMULATIONS

- · Coster 20 mm metering or continuous valve
- · Actuator without micromist insert supplied with assembled cap

#### SALUS NASAL ACTUATOR

- For sea-water solutions
- · For children and adult use
- Fine mist spray
- · Small tip is secure
- for children's nostrils
- Translucent shaped overcap available
- · Limited risk of after-use bacterial contamination
- Materials are food contact compliant

- Clean Room production upon request
- · Can be Gamma-irradiated
- · Suitable for Coster's:
  - BOVs
- 1 inch valves
- 1 inch pumps

Complete & Cost-effective Nasal Spray Systems

asal Applications

Pumps, valves and actuators for buccal, throat and topical applications

THROAT

ACTUATOR

Actuator with

micromist

• For 20 mm

crimp-on

pumps and

continuous

valves

insert

#### **OX-LESS SYSTEM**

- Suitable for viscous Cosmetic & Pharmaceutical products: creams, balms, gels, emulsions
- Airless PP packaging preventing any possible product oxidization
- · Unlimited decoration possibilities: offset, silk screen, hot stamping, sleever, labelling
- Pump with open-close position
- Bottle capacity: 50 and 100 ml
- Pump dosage: 300 and 500 µl

ACTUATOR FOR

VAGINALAPPLICATIONS

#### DENTAL ACTUATOR

- With stainless steel extension tube
- Suitable for 20 mm continuous and metering crimp-on valves
- · Extension tube supplied
- separately
- Tube length upon request

#### **BAG-ON-VALVES (BOV)**

Valves with dual compartment system. DMF type III (22066) available.

### ACTUATORS FOR GELS AND SPRAYS

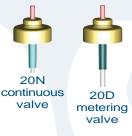

Available for use with OTC products to be dispensed by means of continuous valves, for upright, inverted or 360° use. Suitable for use with Bag-On-Valves and standard 1" valves.

#### ACTUATORS FOR ORAL & TOPICAL APPLICATIONS

A full range of oral and topical actuators for sprays and foams is available for applications such as mouth fresheners or sore throat products. Models are available for use with 20 mm metering valves, continuous valves and pumps.

## **Robust Product** Technology

Oral & Topical Applications

- · For press down valves
- HDPE extension tube supplied separately
- Tube length upon request

**ACTUATORS WITH** 

EXTENSION TUBES

For viscous Pharmaceutical

AIRLESS DISPENSER

- 1" snap-fit mounting cup
- Customizable Ø 35 mm aluminum can, PP piston inside
- Bottle capacity: 30, 40, 50, 60, 75,100 ml
- Pump dosage: 300, 500, 700, 1000 µl

Coster is the sole provider of filling machines, aerosol valves and packaging components for the Pharma Industry

Micro filling head and ceramic piston ensure zero contamination.

Crimping jaw and crimping head for 20 mm valves. Coster machines crimp 20 mm and 1" valves and pumps with maximum precision.

With over 40 years experience in the design and manufacture of high-quality filling machines, Coster is a world class leader in the provision of equipment to the pharmaceutical and cosmetics industries. Coster collaborates with its customers from early development to installation, training and production. Coster Customer Care Service offers worldwide pre and post sales technical support. A full set of documentation for operation, maintenance and validation enables conformance with local legislation requirements. Certificates of Conformity with European safety regulations and of Conformance to Atex standard for operation in areas at risk of explosion and/or risk of fire are provided.

Close-ups of 52-SM/2/PHARMA MDI double pitch machine with double valve inserting chute.

### The Only Pharma Provider of Integrated Packaging Solutions

#### **ISO 8 CLEAN ROOM**

In the manufacture of high-quality components for the pharmaceutical industry, a dust-free working area with strict temperature and humidity control is of vital importance. Coster has implemented an ISO 8 Clean Room where dedicated pharmaceutical components are manufactured. Production takes place in accordance with ISO 15378:2006. an international certification which encompasses ISO 9001 procedures and cGMP guidelines applied to packaging components. New dedicated electrical injection moulding machines, equipped with laminar flow modules, and high-performance moulds have been installed. The cleanliness and quality standards set by our customers are guaranteed by the supervision of highly skilled personnel.

#### LABORATORY EQUIPMENT

- GC Gas Chromatograph
- Integrated Microscope
- and FT-IR Spectrometer
- DSC Differential Scanning Calorimeter
- TGA Thermogravimetric
- Analyzer (FT-IR coupling) • Dinamometers
- Extractometer
- Laser Diffraction Particle Size Analyzer
- High-speed Vision System
- Automatic Shot Weight
- Measurement System
- Gassing Room
- Karl Fischer Titrator

Skilled People, State-of-the-Art Equipment & Laboratories
