

Project: Ghislanzoni school of gymnastics

In 1896, the "Union Ginnastica Antonio Ghislanzoni" was founded by a wide array of the socially interested as well as a number of sport enthusiasts.

Located in the heart of the "Home of Colour Cosmetics" in Lecco near Milan, the Ghislanzoni Gal gymnastic school trains the next generation of athletes.

Lacking the funds to replace its ageing sports materials, Quadpack Foundation lent a helping hand.

After conferring with the school and learning a bit more about student and instructor needs, Quadpack donated €4,000 of sporting equipment.
