## 38mm Tall Spout Dispensing Closure

The **38mm Tall Spout Dispensing Closure** is engineered to tackle your toughest packaging challenges—messy dispensing, leakage, clogging, and shelf stagnation. Featuring a precision spout for clean, controlled application, a secure resealing system to protect product integrity, and an unobstructed outlet design that performs reliably with thicker or particulate formulations, this closure enhances both functionality and consumer satisfaction. Its modern tall spout profile not only improves ease of use but also elevates shelf presence, helping brands differentiate in competitive categories while delivering a superior end-user experience.

### Key Features and Benefits:

Features	Benefits
Controlled directional dispensing	Quick, convenient access, no lost caps
One-hand operation	Ease of opening & closing
Consumer friendly dispensing	Clean and controlled squeezable convenience
Shelf appeal	Modern update to classic twist open look and feel
Suited for dispensing products with larger ingredients	Unobstructed outlet less likely to clog
Hygienic	Hinged tip cap covers outlet

### Outcomes:

- Cleaner consumer experience
- Reduced waste
- Fewer returns
- Protected brand reputation
- Improved performance
- Stronger differentiation
- Premium positioning

### Ideal Markets:

Sauces, hot sauces, condiments, syrups, edible oils, ethnic/world flavor

<b>Cap Size:</b>	38 mm
