

BRIGHT COLORS & WOW WORK

Established in 2014, *Dovidenko Studio* was the concentration of 10 years graphic design practice of Stanislav Dovidenko. The late 2010s was a no-nonsense era when resources like people were scarce and highly valued, and designing was expensive. You can see how much webplatforms were maded for a single user. When clients finded a designer, they didn't throw it away; he or she was reused for illustrating books, print materials and webdesigning.

The dense design was a direct reflection of societal values of the time.
