## **Bella® Cap - Technical Specifications**

### **Cosmetic**

Tecnocap has created Bella® specifically for the cosmetics market. Bella's smooth, elegant, stylish appearance emanates an air of sophistication and class.

Bella® can be enhanced with subtle color changes or bold graphics to more accurately reflect your target market. Bella's external tin-plate steel shell is coupled with a polypropylene threaded interior for a 33-58/400 finish. Other sizes are in development.

Why choose Bella® Cap:

- No visible threads for a smooth, elegant appearance.
- Polypropylene interior cap with other resins available for compatibility with the contents.
