

## CHILD RESISTANT Closures - Technical Specifications

### Pharma & Nutraceutical

The CRC Saf-Lok<sup>®</sup> closures were designed in accordance with regulations to prevent potential hazards to children. Saf-Lok<sup>®</sup> systems provide convenient child safe closures to be used with packaging containing goods with potentially harmful substances.

The interior part of the Saf-Lok<sup>®</sup> is a metal closure that is encompassed in a plastic shell. The metal closure can be customized with lithography and emboss/deboss methods.

This product is available in a limited range of sizes to meet the needs of our customers.
