paper pulp solutions

Pulp Roll Gradles

Pulp Roll Cradles from Pulp Tec are available in a variety of sizes. The Pulp Cradles are designed to ensure easy packing of rolls and guarantees strength and stability of pallet load.

- Cost Effective Pulp Cradles saves money on packaging and allows more rolls to be packed on a pallet. These can be used to package poly films, pipes, fence rolls and other cylindrical products that are difficult to contain on a pallet.
- Large range of products in stock and available for immediate despatch delivered within one week anywhere in mainland UK and within 7—10 days throughout rest of Europe.
- Easy to use design provides safe roll loading and offers great load bearing support.
