Reduced Plastic Usage

The one-piece design uses less plastic compared to traditional two-part tubes.

Eco-Friendly & Sustainable

Aligns with global plastic reduction trends, helping brands fulfill sustainability goals.

## 可替换膏体管系列 | Refillable Deodorant Sticks

### Environmental Sustainability

Consumers only need to replace the inner product cartridge, while the outer packaging can be reused, reducing plastic/metal consumption.

### Cost Efficiency-Increases repurchase rates

consumers are more likely to continue purchasing from the same brand due to the convenience of replacements.

**MP1406**

40ml 50ml

Material: ABS + PP + LDPE + (LDPE + ADMER + EVOH)

## 口红管系列 | Lipstick Tubes

MONO PRODUCTS

"Mono-material" typically refers to the use of a single type of material to manufacture a product.

Utilizing a mono-material approach helps simplify the recycling and reuse process.
