

**Ergosol®**

## Integrated // Impressive

Ergosol® is a trigger-actuated, ready-to-use aerosol sprayer offering superior flexibility and comfort. Featuring a simplified, three-piece actuator, Ergosol is the first off-the-shelf sprayer with the aesthetics and performance functionality of a customized solution. However, because it includes fewer parts than customized solutions, it allows easy conversion from traditional push-button aerosol sprayers. Ergosol fits almost any can size, provides a variety of spray patterns to choose from, and is designed to reduce finger fatigue—all resulting in a better consumer experience.

# Ergosol<sup>®</sup>

An off-the-shelf alternative with a premium look
