MSP SERIES

MANUAL TABLE TOP SKIN PACKAGING MACHINES

- Economical manual table top design
- 12" x 18" and 18" x 24" vacuum box sizes offered
- MSP-1218 available in 115 and 220 volts single phase models.
- MSP-1824 is 208 - 220 volts single phase.
- Can be used for retail carded packaging or shipping containment
- Energy saving Impulse Heating instant-on quartz heater system
- All models use standard skin film roll widths

MSP-1824
with optional floor stand

MSP-1218

Description

Starview's MSP Series skin packaging machines are designed for low volume applications. They incorporate a stationary heating system with instant on/off heaters, which come up to heat instantly during cycles and turn off for loading / unloading. The MSP skin packaging machines have timer control for precision repeatability and an accurate turbine regulator. The MSP Series is available in the standard sizes 12 by 18 inches and 18 by 24 inches.

Specifications

<i>Model</i>	MSP-1218	MSP-1824
Maximum card size:	12" x 18"	18" x 24"
Heating system:	Quartz impulse	Quartz impulse
Vacuum system:	Turbine	Turbine
Average cycle time:	30-60 seconds	30-60 seconds
Maximum product height:	8"	6"
Approximate size:	28"W x 31"D x 27"H	34"W x 37"D x 31"H
Approximate weight:	60 lbs.	180 lbs.

SP & SP/IR SERIES

SEMI-AUTOMATIC SKIN PACKAGING MACHINES

- Standard sizes 18 x 24" through 36" x 48" offered
- Use for retail carded packaging or shipping containment
- Convenient pendant mounted color touch screen HMI
- In-feed and out-feed tables standard
- Impulse hot wire cut-off standard
- Heavy-duty Industrial design for long life

SP Series
with optional casters
& film temperature sensor

SP/IR Series

Starview Packaging Machinery, Inc.

Toll free: 1-888-278-5555 / www.starview.net

Description

Starview's SP & SP/IR Series skin packaging machines are designed for low to medium volume applications. SP machines incorporate a stationary heating system with instant on/off heaters. SP/IR models incorporate an automatic retractable radiant heater panel system, controlled by percentage controllers for precise heat distribution. All SP & SP/IR skin packaging machines have PLC timer control for precision repeatability and an accurate turbine regulator. An in-feed table, out-feed table and impulse type hot wire cut-off are all standard. A multi-stage vacuum system for complex parts is included as a part of the HMI.

Starview's SP & SP/IR Series skin packaging machines can be equipped with an optional film temperature sensor that overrides the PLC heat timer for consistent film heating. The SP/IR series may be ordered with a blister forming option to produce low profile blisters from roll stock.

ASP SERIES

AUTOMATIC SKIN PACKAGING MACHINES

- Standard sizes 18 x 24" through 36" x 48" offered
- Use for retail carded packaging or shipping containment
- PLC machine control with color HMI
- Moving template in-feed and manual out-feed tables standard
- Impulse hot wire cut-off standard
- Optional automatic out-feed available

ASP Series
with automatic overhead out-feed

Starview Packaging Machinery, Inc.

Toll free: 1-888-278-5555 / www.starview.net

Description

Starview's ASP Series skin packaging machines are designed for low to medium volume applications. ASP machines incorporate a stationary heating system with instant on/off heaters. ASP skin packaging machines have PLC timer control for precision repeatability and an accurate turbine regulator. An automatic in-feed table with traveling template loader, out-feed table and impulse type hot wire cut-off are all standard. A multi-stage vacuum system for complex parts is included as a part of the HMI. A film temperature sensor that overrides the PLC heat timer for consistent film heating is standard.

Starview's ASP skin packaging machines can be equipped with an optional automatic overhead out-feed system. The PLC can be used to advance an optional conveyor to remove finished skin packages from the work area.
